RE: Lilac Hills Ranch

Dear Mr. Woods:

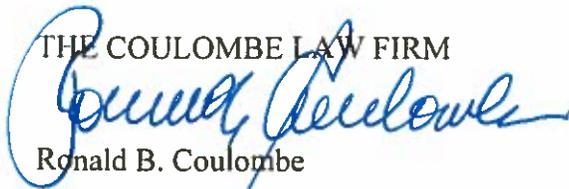

As a resident and business owner in North San Diego County, the need for more and better services, and smart development of residential communities such as Lilac Hills Ranch is essential. The transition of the North County from rural/agricultural to rural/residential is inevitable.

Lilac Hills Ranch is a perfect component to add to the future of North County. It is a well-planned sustainable community that incorporates the latest green technologies and building practices. By allowing this development to proceed, the County is setting the bar high for other developments that are sure to come.

Lilac Hills Ranch will fit perfectly into the planned development at the intersection of Interstate 15 and State Route 76, and the eventual construction of the San Luis Rey River Park. I look forward to this growth and for the addition of vital services needed by existing and future residents such as grocery and drug stores, office space and the Palomar Community College annex.

Thoughtful, planned growth in North County is needed. Lilac Hills Ranch is a positive step in the right direction.

Very truly yours,
