Dear Chairman Woods:

As long time residents of Bonsall, my wife and I support "Lilac Hills Ranch Project" as many neighbors, friends, and associates in the surrounding communities do.

To save your precious time--which hopefully will be spent towards our cause and request--we have taken slightly altered letter from "The committee for Save The Downs" and send it for your considerations. Please see below.

High regards,

Darioush and Pat Parniani

Chairman Woods,

I write to you on behalf of Save the Downs – a grassroots organization made up of local Bonsall and northern San Diego County residents. We support Lilac Hills Ranch because the project is a low-impact green community that will maintain over 100 acres of open space, 80 acres of agriculture, and will restore the area’s natural beauty by enhancing more than 18 acres of creeks and wetlands without destroying the San Luis Rey Downs Golf Course.

Lilac Hills Ranch is a smart plan that will contribute to the community, rather than detract from it. The project preserves the area’s unique contours by limiting grading to preserve steep slopes, thus retaining the distinctive characteristics that have made Bonsall and its neighboring towns a stunning place to live.

We are also excited about the new opportunities for employment Lilac Hills Ranch will create for local residents and the positive impact the project will have on our economy. This area of San Diego County needs jobs, and Lilac Hills Ranch is a smart plan for creating them.

We ask the San Diego County Planning Commission support Bonsall and its surrounding communities by Approving Lilac Hills Ranch during your August 7th hearing.

Sincerely,

The committee for Save The Downs

Jerry Tomaz- Vice President
Jeri Walz – Secretary
