Good afternoon Lisa,

I just wanted to communicate with you regarding the Lilac Hills Project. I have been involved in construction and development since 1968, as a builder and developer myself and as the department manager overseeing construction/development for Mercury Savings and Loan. In those capacities I have overseen the design and construction of thousands of housing units in Los Angeles, Orange and San Diego Counties. Lilac Hills is by far the most intelligently designed project I have had the opportunity to review. I would be proud to have my name associated with it. I hope you will allow this project to move forward. It will be a boon to not only Bonsall/Valley Center but to San Diego County as well.

Respectfully,

Frank T. Vilelli
