San Diego County Planning Commission
Chairman Bryan Woods
5510 Overland Avenue,
Suite 110
San Diego, CA 92123
Chairman Woods,

I support Lilac Hills Ranch because the project is a low-impact green community that will maintain over 100 acres of open space, 80 acres of agriculture, In short it is an ecologically sound, very well designed plan that will enhance our community .

The project preserves the area's unique contours by limiting grading to preserve steep slopes, thus retaining the distinctive characteristics that have made Bonsall and its neighboring towns a wonderful place to live. We are excited about the new opportunities for employment Lilac Hills Ranch will create for local residents and the positive impact the project will have on our economy. This area of San Diego County needs jobs, and Lilac Hills Ranch is a smart plan for creating them.

Change is inevitable, lets choose smart change. I ask that the San Diego County Planning Commission support Bonsall and its surrounding communities by approving Lilac Hills Ranch during your August 7th hearing.

Janine Hogg

Bonsall Resident
