Dear Ms. Fitzpatrick,

I am counting on you to recognize the importance of preserving the Bonsall community. With the closing of the San Luis Rey Downs Golf Course, our community has lost property value, revenues and employment. We are also facing a terrible increase in fire hazard because there is no maintenance to clean up the enormous amounts of dead brush and trees that have died during the past year. It is really a shame that such a nice, unique community be unsupported by our government. We have really been a bright spot on the map of north county san diego. I hope that you will approve the Lilac Hill Ranch project because it brings new hope to keep our homes and the environment green.

Thank you.

Judy Keehn  
Bonsall Resident
