Hello,

I am writing this letter in support of the Lilac Hills Ranch sustainable community project. I lived in Valley Center for 10 years and have taught at the public schools there for 17 years. My children attend Valley Center schools and we are all very involved in the community. I have seen the plans, toured the land, visited other housing developments, and personally gotten to know the people who are heading up this proposed project. I am very impressed with their family, community and ecology friendly designs which are not only beautiful and utilitarian, but also fit into the country feel of the Valley Center area. This project will not only benefit the community by bringing housing at multiple levels of affordability, but will also bring in new business opportunities and help current businesses with increased patronage. It will also improve our school district which has been in declining enrollment for many years. More students means more programs, more opportunities, and more participation which increase the quality. This includes our academic programs as well as sports and the arts programs at all of the Valley Center schools. Thank you for your time and consideration.

Sincerely,
Marc Wasserman
