Mr. Bryan Woods  
San Diego County Planning Commission  
5510 Overland Ave., Suite 110  
San Diego, CA 92123

Dear Mr. Woods,

I vote that the Lilac Hills project be approved. I have resided in Valley Center for over 17 years and believe in smart growth. With increasing concern over our water supply here in Southern California the fact that Lilac Hills project will offer neutral water usage is innovative and shows care and concern for our area. The fact that the Deer Springs Fire Dept. has approved the Lilac Hills Ranch Fire Protection plan & that the District has issued a Facility Availability letter and has stated that the District has the capability and capacity to serve the community as well as all of the roads meet the Fire District Standards cause me to anticipate the approval of Lilac Hills project ensuring a smart growth & green community similar to San Elijo Hills.

The fact that the county staff has taken the position of suggesting the approval of this project shows that they have overcome all the obstacles requested of them.

Sincerely,

Patricia Lucchesi
