San Diego County Planning Commission
Chairman Bryan Woods
5510 Overland Avenue, Suite 110
San Diego, CA 92123

Dear Chairman Woods,

My husband and I would have loved to attend the hearing on 08/07/2015. Unfortunately, we both work and could not take the time off. However, as a nearby resident to the proposed project site for Lilac Hills Ranch, we did want our voices to be heard.

The Lilac Hills project actual comes up to North West side of my property. Therefore, you can appreciate that our family stands to be the ones most affected by this project.

Would it would be nice to have no new building and everything remain static? Maybe, however, we realize that this “not in my backyard mentality is just not realistic.

Paul and I have attend numerous meetings and hearings. We have also conducted comprehensive research into the Lilac Hills Ranch Project. Therefore, we believe that we are well-qualified to offer our opinion.

We encourage the Planning Commission to approve Lilac Hills Ranch Project. The project location is perfect for the proposed development. It will be a well-planned and designed addition to our neighborhood.

Additionally, Lilac Hills Ranch will provide new amenities that our community needs. The project will provide public trails and parks; a rustic town center; and the project will also invest hundreds of thousands of dollars (maybe Millions) on road and intersection improvements. (Reducing traffic and making streets safer always make a positive impact on a citizenry.) This is a win-win for everyone.

For these reasons, and many more, Paul and I lend our support to the Lilac Hills Ranch Project.

Please help improve our neighborhoods by approving this project during the Commission’s August 7th hearing.

Thank you,

Z and Paul Smith
