I. CONTAMINATED SITE / ENVIRONMENTAL INVESTIGATION LISTINGS

A. State Lists

Many state lists may only be of historical interest. Contact the agencies for specific information regarding the frequency of updates and the status of the currently distributed lists.

1. GeoTracker

Historically, San Diego County, Department of Environmental Health (DEH) has provided a list of environmental cases (Case List) in San Diego County on the DEH website. The State Water Resources Control Board now provides real-time case information on all open and closed cases throughout California, including San Diego County. This database is called the GeoTracker data management system (GeoTracker). DEH will now rely exclusively on GeoTracker to provide case information. GeoTracker can be searched to obtain a complete list of cases in San Diego County and also to find detailed information about these cases. Searches can also be completed for a specific area or property. The GeoTracker website is located at:

<http://geotracker.waterboards.ca.gov>.

2. HWP - (Hazardous Waste Property)

California Department of Toxic Substances Control (DTSC) list of sites with deed restrictions that limit land use. Hazardous Waste Properties have not yet (1992) been designated by DTSC. Hazardous Waste Property is land at which hazardous waste has been deposited. A Border Zone Property is any property within 2,000 feet of a hazardous waste deposit. The list of sites with deed restrictions is located at:

3. CAL-SITES

CAL-EPA list of known and potential hazardous waste sites based on a variety of information sources including ASPIS, Bond Expenditure Program and Annual Workplan). Most of the information is preliminary. Many sites identified as requiring no further action based on determination that either release was of insignificant public or environmental concern, or that

no release occurred (Includes Abandoned Site Program- ASPIS, Bond Expenditure Program 1984-BEP, Annual Workplan).
