**Subject:** Eye sore

I just wanted to make sure you know that this eye sore is being cleaned up. Miss Trout had a contract with an onion grower in the Imperial Valley. They lost one million onions last year and pulled out. We are now working with Miss Trout in cleaning up this property. We have removed two single wide mobile homes as of today. I know Mr Brown raised an eye brow when he looked at this property. As far as I know this is the only eye sore we have today.

I have been told by a real-estate expert that it hurts our property Value as much as 20% just as the rugged project would.
