I. HABITAT LOSS PERMIT ORDINANCE – Does the proposed project conform to the Habitat Loss Permit/Coastal Sage Scrub Ordinance findings?

YES

NO

NOT APPLICABLE/EXEMPT

Discussion:

While the proposed project and off-site improvements are located outside of the boundaries of the Multiple Species Conservation Program, the project site and locations of any off-site improvements do not contain habitats subject to the Habitat Loss Permit/Coastal Sage Scrub Ordinance. Therefore, conformance to the Habitat Loss Permit/Coastal Sage Scrub Ordinance findings is not required.

II. MSCP/BMO - Does the proposed project conform to the Multiple Species Conservation Program and Biological Mitigation Ordinance?

YES

NO

NOT APPLICABLE/EXEMPT

Discussion:

The proposed project and any off-site improvements related to the proposed project are located outside of the boundaries of the Multiple Species Conservation Program. Therefore, conformance with the Multiple Species Conservation Program and the Biological Mitigation Ordinance is not required.

III. GROUNDWATER ORDINANCE - Does the project comply with the requirements of the San Diego County Groundwater Ordinance?

Discussion:

Wetland and Wetland Buffers:

The site contains wetland habitats as defined by the San Diego County Resource Protection Ordinance. Even though wetlands and/or wetland buffer areas have been identified on the project, the project has been found to be consistent with Sections 86.604(a) and (b) of the Resource Protection Ordinance the wetland and a 50-foot wide wetland buffer will be preserved in open space and no impacts will occur.

Floodways and Floodplain Fringe:

The project is not located near any floodway/floodplain fringe area as defined in the resource protection ordinance, nor is it located near any watercourse which is plotted on any official County floodway/ floodplain map.

Steep Slopes:

Slopes with a gradient of 25 percent or greater and 50 feet or higher in vertical height are required to be placed in open space easements by the San Diego County Resource Protection Ordinance (RPO). There are no steep slopes on the property. The project is in conformance with the RPO.

Sensitive Habitats:

Sensitive habitat lands were identified on the site as determined by a biological resources map prepared by Bill Everett on January 26, 2005. However, the project will not complete any development, grading, grubbing, clearing, or any other activity that will damage the sensitive habitat lands. These lands will be preserved in a biological open space easement. Therefore, it has been found that the proposed project complies with Section 86.604(f) of the Resource Protection Ordinance.

Significant Prehistoric and Historic Sites:

The property has been surveyed by a County of San Diego certified archaeologist/historian, Gail Wright and it has been determined that the property does not contain any archaeological or historical sites.

V. STORMWATER ORDINANCE (WPO) - Does the project comply with the County of San Diego Watershed Protection, Stormwater Management and Discharge Control Ordinance (WPO)?

YES

NO

NOT APPLICABLE

Discussion:

The Department of Planning and Land Use (DPLU) and Department of Public Works (DPW) staff have reviewed the Stormwater Management Plan (SWMP) submitted to the County of San Diego on January 18, 2006 and prepared by William Karn Surveying. This document complies with the County of San Diego Watershed Protection, Stormwater Management, and Discharge Control Ordinance (WPO, Section 67.817).

VI. NOISE ORDINANCE – Does the project comply with the County of San Diego Noise Element of the General Plan and the County of San Diego Noise Ordinance?

YES

NO

NOT APPLICABLE

Discussion:

The project would not expose people to nor generate potentially significant noise levels which exceed the allowable limits of the County of San Diego Noise Element of the General Plan, County of San Diego Noise Ordinance, and other applicable local, State, and Federal noise control regulations.
