- Next, you want to register your commodities.
- Click on the button at the bottom to register your commodities.

You will now see this screen:

- Solicitations are coded to the lowest possible level. You may register at Family (highest) Class, or Commodity (lowest) level only. When you register for a UNSPSC code, you will be notified of ALL posted solicitation lines that match that level and higher. We recommend that you register at the highest applicable level. (BuyNet does not use the business type).

For demonstration purposes, to see if any codes exist for Social, type the word “Social” into the Search box at the right. Since you are browsing by Title, change the Browse Segment level to Title. (left corner). Check to see if the “search for” was by title as well. Click “GO”

The screenshot shows the 'BUYNET II' website interface. At the top, there is a navigation bar with links: Home, Change Password, My Profile, Logout, and Information. The main heading is 'Register Commodities'. Below this, a message states 'You have not registered for any commodities.' with buttons for 'Instructions' and 'Request Help'. The search section includes a prompt 'Please select additional commodities from the list below'.
