**Note Re Class VI, Level II Determination:** Elevation of a Class VI case to Level II is within the sole discretion of OAC. A decision to elevate will be made based on OAC's independent determination that such elevation is warranted because the case appears to present a high risk of a capital case election being made by the D.A. Relevant indicators suggesting that such an elevation might be appropriate would include, but not be limited to, comments from the D.D.A. assigned to the case suggesting a strong consideration of the death penalty and/or cases presenting such particularly aggravating factors as the victim having been a law enforcement officer engaged in the performance of his or her duties, a minor having been killed during the course of a sexual assault, the use of extreme torture prior to the killing, and/or a case charging the alleged killing of multiple victims. No such factors will automatically require elevation to Level II. OAC's discretionary elevation decision will be made on a case by case basis.
