General Plan

Staff Recommendation

# 6 - 104 LAND USE CLEAN-UP

AL101

Fire Hazard Severity Zones

## Context

These two parcels, located northeast of the Dunbar Lane interchange with I-8, are currently developed with single family residences that are located less than 50 feet from the interstate off-ramp. A middle school site is located less than 500 feet to the north. Physical constraints on the property are minimal because the site is relatively flat and surrounded by developed properties. While the I-1 designation was ultimately adopted, the community now supports a Rural Commercial designation.

## General Plan Consistency

*Policy LU-1.1 Assigning Land Use Designations. Assign land use designations on the Land Use Map in accordance with the Community Development Model and boundaries established by the Regional Categories Map.*

The Rural Commercial designation is consistent with policy LU-1.1 because the proposed change is adjacent to Village Residential densities and Village Regional category land uses.

*Policy LU-11.1 Location and Connectivity. Locate commercial, office, and industrial development in Village areas with high connectivity and accessibility from surrounding residential neighborhoods, whenever feasible.*

The Rural Commercial designation is consistent with policy LU-11.1 based on the following:

- Excellent access at the Interstate 8 interchange with Dunbar Lane;
- Located adjacent to Village Residential densities; and
- Good connectivity to adjacent residential area.

# 6 - 106 LAND USE CLEAN-UP

**E. Organized / Special Presentations:**

1. The County of San Diego is requesting comments regarding the Draft 2013 General Plan Clean-Up General Plan Amendment (GPA 12-007). The 2013 Clean-Up is the first to be processed since the adoption of the updated General Plan. The Draft Clean-Up Plan proposes changes to the land use map, policy documents, Mobility Element network, and certain community and sub regional plans. Also, for convenience, four very low complexity General Plan property specific requests are being processed concurrently as GPA 12-012. The Clean-Up process is only meant to be used for minor changes or additions to the General Plan that do not result in additional significant environmental impacts. The Draft 2013 General Plan Clean-Up GPA is available at:

<http://www.sdcounty.ca.gov/pds/advance/2013GPBiAnnualClnUp.html>. Public comments are due by the close of business Monday, May 20<sup>th</sup>, 2013.

**Presentation, Discussion and Action.**

Travis Lyon spoke regarding this matter. No representative from the county was able to be present. Kevin Johnston with the County of San Diego is the person handling this clean up, but had a prior engagement and could not make the meeting. He asked that the ACPG conduct the meeting and gather comments and make a recommendation to the county. Public comment: Sharon Haven spoke on behalf of Mr. Lyle Morton. His property is currently zoned limited impact industrial and he is requesting that it be changed to rural commercial. This is a land use designation change.

# 6 - 108 LAND USE CLEAN-UP

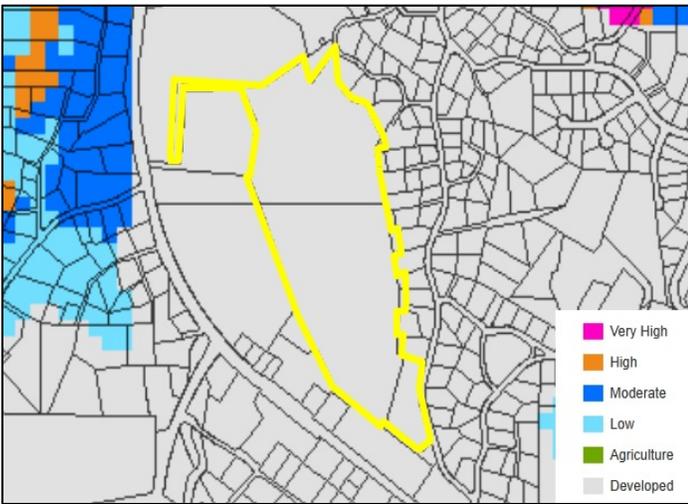

CM101

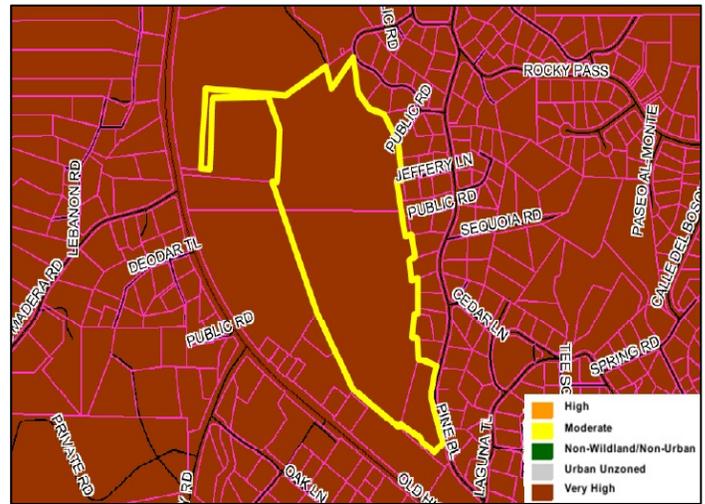

Agriculture

Wetlands

Habitat Evaluation Model

Fire Hazard Severity Zones

## Context

CM101 consists of 3 parcels totaling 40.5 acres that were recently purchased by the County Department of Parks and Recreation for open space. The proposal is to change the designations of the parcels from Rural Lands-80 and Office/Professional to Open Space-Conservation. This acquisition adds additional acreage to the existing Pine Valley County Park, with the intent of limiting the new area to passive recreation and open space. The parcels contain some wetlands and very high fire hazards.

## General Plan Consistency

*Policy COS-21.1 Diversity of Users and Services. Provide parks and recreation facilities that create opportunities for a broad range of recreational experiences to serve user interests.*

The Open Space-Conservation designation is consistent with policy COS-21.1 based on the following:

- This acquisition would add acreage to the existing Pine Valley County Park, which is centrally located within the community and adjacent to Village Residential designations.
- Active park facilities exist at this park and the addition of OS-C designated land would facilitate passive trails in the new area; providing an alternative recreation experience in this portion of the park, to serve the diverse interests of the community.

# 6 - 111 LAND USE CLEAN-UP

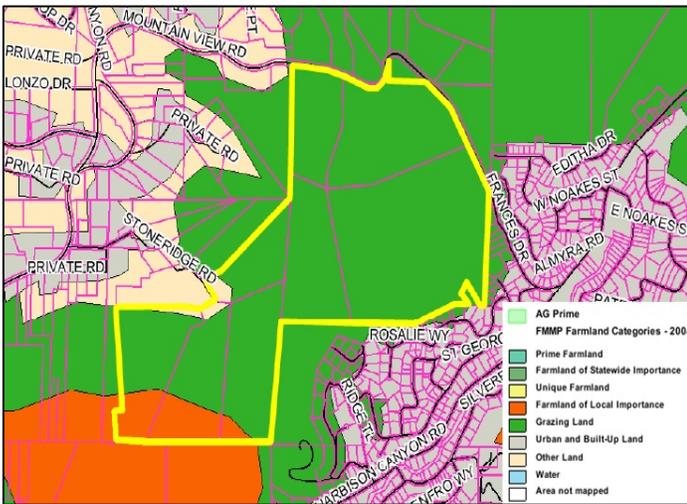

CD101

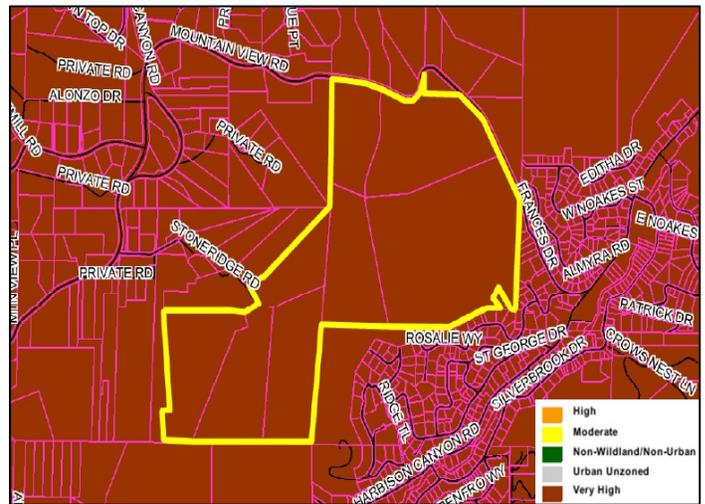

Steep Slope (Greater than 25%)

Habitat Evaluation Model

Agricultural Lands

Fire Hazard Severity Zones

## Context

This property was recently purchased by the County Department of Parks and Recreation for open space. The proposed change is to re-designate 8 parcels totaling 226 acres from RL-20 to Open Space-Conservation. This purchase adds to the existing County open space to the south, to further protect the sensitive habitats of Harbison Canyon in this MSCP Pre-Approved Mitigation Area (PAMA).

## General Plan Consistency

*Policy COS-1.1 Coordinated Preserve System. Identify and develop a coordinated biological preserve system that includes Pre-Approved Mitigation Areas, Biological Resource Core Areas, wildlife corridors, and linkages to allow wildlife to travel throughout their habitat ranges.*

The Open Space-Conservation designation is consistent with policy COS-1.1 based on the following:

- The entire area is in a MSCP Pre-Approved Mitigation Area (PAMA)
- This acquisition will protect a critical linkage in an existing wildlife corridor that extends from I-8 down to Jamul

**From:** wrplanning@aol.com  
**Sent:** Monday, May 13, 2013 11:37 AM  
**To:** Johnston, Kevin  
**Subject:** Community Plan Cleanup Crest-Dehesa

Hi Kevin,

I am sorry, I thought I replied to the information that was sent to the Crest-Dehesa regarding the plan clean-up changes.

The Planning Group held a discussion under the Announcements category of an earlier agenda, and by consensus, agreed that the changes proposed to the Crest-Dehesa-Granite Hills-Harbison Canyon Plan area were so minor that no action was necessary.

I apologize for the inconvenience that was caused.

Wally Riggs, Chairman  
Crest- Dehesa Planning Group

JD101

Steep Slope (Greater than 25%)

Habitat Evaluation Model

Agricultural Lands

Fire Hazard Severity Zones

## Context

This former Otay Water District property was transferred from public to private ownership. The proposed change in designation is from Public/Semi-Public Facilities to Semi-Rural 2 to match surrounding properties.

## General Plan Consistency

*Policy LU-1.1 Assigning Land Use Designations. Assign land use designations on the Land Use Map in accordance with the Community Development Model and boundaries established by the Regional Categories Map.*

The Semi-Rural 2 designation is consistent with policy LU-1.1 because the proposed SR-2 designation is surrounded by properties with SR-2 designations and is located entirely within the Semi-Rural Regional Category on the Regional Categories Map.

**JAMUL DULZURA  
COMMUNITY PLANNING GROUP  
Draft MINUTES  
Tuesday, April 23, 2013  
To be Approved May 14, 2013  
Oak Grove Middle School Library  
7:30 pm**

1. **Call to Order:** Jean Strouf called the meeting to order at 7:35 p.m.
  
2. **Roll Call:** Michael Casinelli, Judy Bohlen, Janet Mulder, Jean Strouf, Dan Kjonogaard, Elizabeth Kelly, Steve Wragg, Ray Deitchman, Preston Brown Earl Katzer, and Bill Herde  
.  
**Excused:** Joan Kouns, Randy White,  
**Absent:** Yvonne Purdy-Luxton, Dale Fuller
  
7. **GENERAL PLAN CLEAN UP COMMENTS DUE MAY 20<sup>TH</sup>: DAN NEIRINCKX** - Jean announced that our comments are due by May 20, but Dan said he has been told they will take ours later as well. The County is recommending SR-2 to a redesignation of one parcel – our JD101 - from Public/Semi Public to Semi-Rural 2 to match surrounding parcels – 8 acres. The other area of change actually changes our policy 2G7 from ½ acre permissible in SR-1 – to the 1-acre minimum we requested. Two other items Dan suggests we comment on include: In our Community Plan (Page 9 under Land Use) Policy 5 to delete the part that references the FCI and the second is on page 14 in our Community Plan Chapter 4 – Recreation – Remove the comments that Policy 4 and 5 were deleted by GPA 8303 and just re-number all of our JDCP policies to clean up our Community Plan. **Michael Casinelli moved that we send a letter to Kevin Johnston and Bob Citrano stating same. Motion carried unanimously.**

# 6 - 116 LAND USE CLEAN-UP

JL101

Proposed Change: Rural Commercial (portion) to Semi-Rural 10  
Basis for Change: Clean-up GP/Zoning

Community Recommendation	N/A <sup>1</sup>
Opposition Expected	No

**Property Description**

Property Owner:  
Donald L & Jean E Winslow

Property Size:  
1 parcel (9.1 acres; approximately 2.2 acres proposed to change)

Location/Description:  
Adjacent to SR-78, north of Wynola Rd.; outside County Water Authority boundary

- Prevalence of Constraints (See following page):  
● - high; ◐ - partially; ○ - none

Aerial Photo

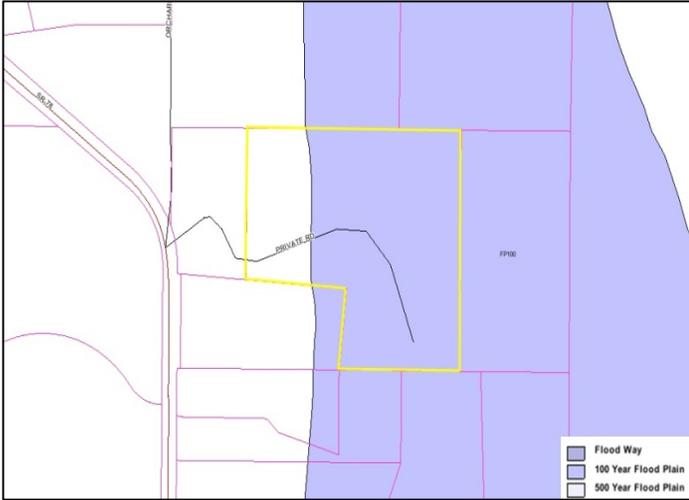

General Plan

Staff Recommendation

# 6 - 117 LAND USE CLEAN-UP

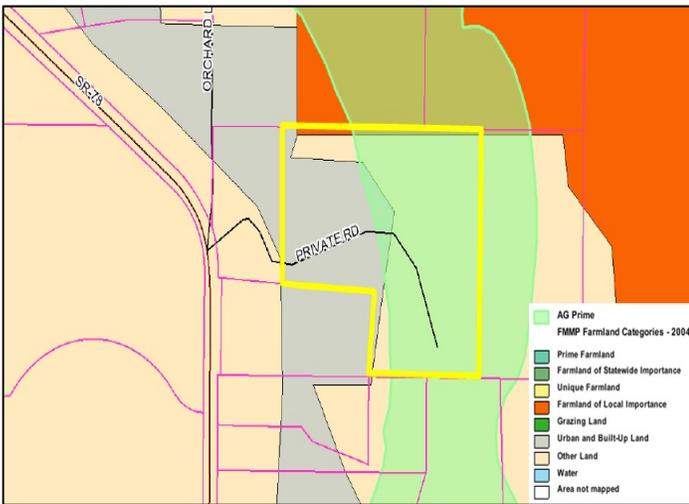

JL101

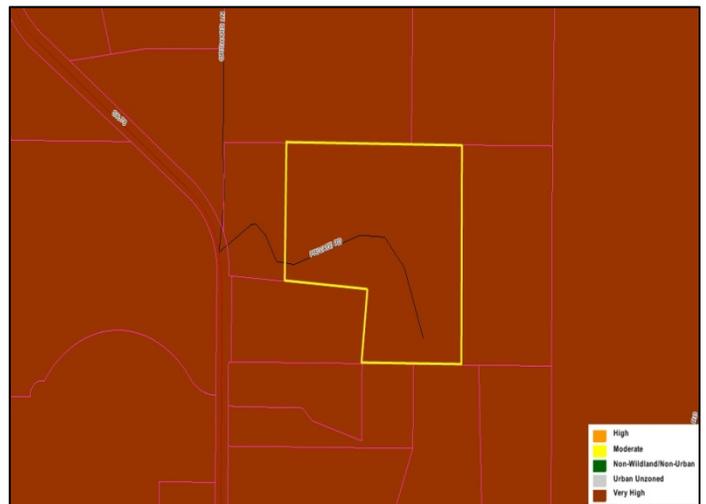

Floodplain

Wetlands

Agricultural Lands

Fire Hazard Severity Zones

## Context

This parcel is considered based on a General Plan/Zoning designation clean-up to match the less intensive existing use on the site. Currently, the western portion of the lot is designated Rural Commercial with C36 zoning. The proposal would change 2.2 acres of the western portion of the 9.1-acre property from Rural Commercial to SR-10. Also, this would change the zoning on the western portion from C36 to A70. Both changes would match the designations on the rest of the lot.

## General Plan Consistency

*Policy LU-6.2 Reducing Development Pressures. Assign lowest-density or lowest-intensity land use designations to areas with sensitive natural resources.*

The Semi-Rural 10 designation is consistent with policy LU-6.2 based on the following:

- Bailey Creek runs through the property, adjacent to the current commercially-designated portion. The property also contains an oak woodland area in the western portion and wetlands on the eastern portion.
- This area contains over 45 acres of commercially-designated lands that are groundwater dependent. Adjacent residents have expressed concerns related to possible groundwater overdrafts.

LS101

Steep Slope (Greater than 25%)

Habitat Evaluation Model

Fire Hazard Severity Zones

## Context

This property was transferred from public to private ownership. An associated change in designation from Public/Semi-Public Facilities to Semi-Rural 1 is requested to match the rest of the legal lot (392-070-07 & 10 are one legal lot per BC06-0059) as well as the surrounding parcels. Due to the steep slope on this area, an additional dwelling unit may not be possible, depending on an engineer-certified slope analysis. The property was previously owned by the Lakeside Water District.

## General Plan Consistency

*Policy LU-1.1 Assigning Land Use Designations. Assign land use designations on the Land Use Map in accordance with the Community Development Model and boundaries established by the Regional Categories Map.*

The Semi-Rural 1 designation is consistent with policy LU-1.1 because the proposed SR-1 designation is surrounded by properties with SR-1 designations and is located entirely within the Semi-Rural Regional Category on the Regional Categories Map.

LS103

Steep Slope (Greater than 25%)

Habitat Evaluation Model

Agricultural Lands

Fire Hazard Severity Zones

### Context

The parcel was recently purchased by the County Department of Parks and Recreation and the San Diego River Park Foundation for open space. The proposal is to change the designation of the parcel from Rural Lands 40 to Open Space-Conservation. The parcel contains extensive steep slopes and is within the very high fire hazard zone.

### General Plan Consistency

*Policy COS-1.6 Assemblage of Preserve Systems. Support the proactive assemblage of biological preserve systems to protect biological resources and to facilitate development through mitigation banking opportunities.*

The Open Space-Conservation designation is consistent with policy COS-1.6 because the County Department of Parks and Recreation worked with the SD River Park Foundation to acquire the land and preserve it as open space for protection of sensitive habitats in the upper San Diego River valley.

LS104

Steep Slope (Greater than 25%)

Habitat Evaluation Model

Agricultural Lands

Fire Hazard Severity Zones

## Context

These parcels were recently purchased by the County Department of Parks and Recreation for open space. The parcels are located approximately ¼ mile south of Scripps Poway Parkway and ¼ mile west of State Route 67. The proposal is to change the designations of the six parcels from Rural Lands 40 to Open Space-Conservation. The parcels contain extensive steep slopes and very high fire hazards.

## General Plan Consistency

*Policy COS-1.1 Coordinated Preserve System. Identify and develop a coordinated biological preserve system that includes Pre-Approved Mitigation Areas, Biological Resource Core Areas, wildlife corridors, and linkages to allow wildlife to travel throughout their habitat ranges.*

The Open Space-Conservation designation is consistent with policy COS-1.1 based on the following:

- The entire area is in a MSCP Pre-Approved Mitigation Area (PAMA)
- This acquisition will protect a critical linkage in an existing wildlife corridor extending south from Scripps Poway parkway, and including Sycamore Canyon County Park to the southeast

## APNs

3240402500, 3240402600, 3240402700, 3240402800, 3240403100, and 3240403200

# 6 - 132 LAND USE CLEAN-UP

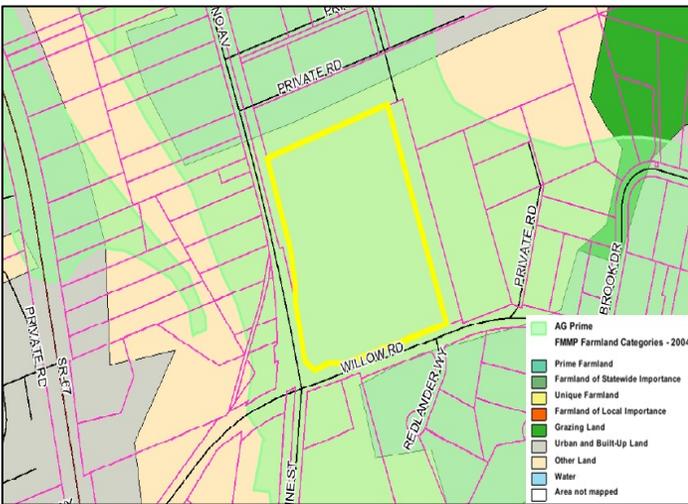

LS105

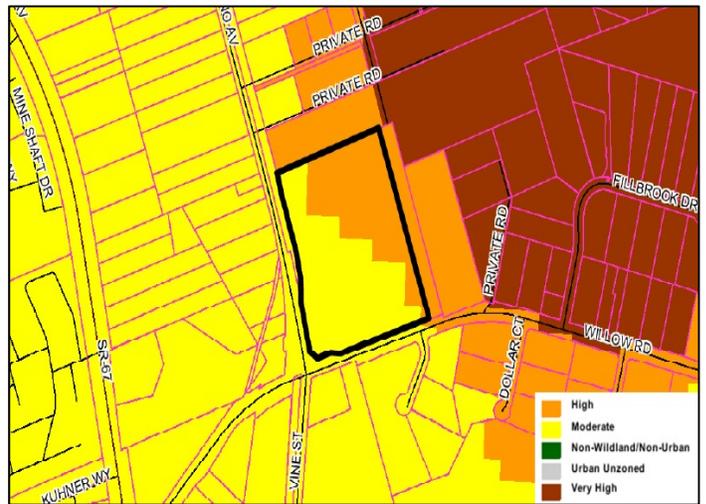

Floodplain

Wetlands

Agricultural Lands

Fire Hazard Severity Zones

## Context

This parcel was recently purchased by the County Department of Parks and Recreation for use as an equestrian center. The parcel is surrounded by semi-rural lands and is located ¼ mile east of State Route 67. The proposal is to change the designation of the parcel from Public/Semi-Public Facilities to Open Space-Recreation.

## General Plan Consistency

*Policy COS-21.1 Diversity of Users and Services. Provide parks and recreation facilities that create opportunities for a broad range of recreational experiences to serve user interests.*

The Open Space-Recreation designation is consistent with policy COS-21.1 because this acquisition would allow the development of an equestrian facility, in an area of Lakeside that is known for its prevalence of equestrian enthusiasts.

Staff Recommendation

# 6 - 135 LAND USE CLEAN-UP

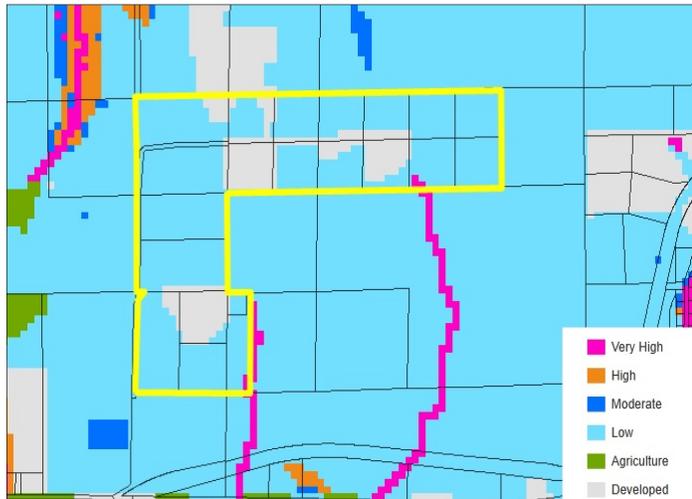

ME101

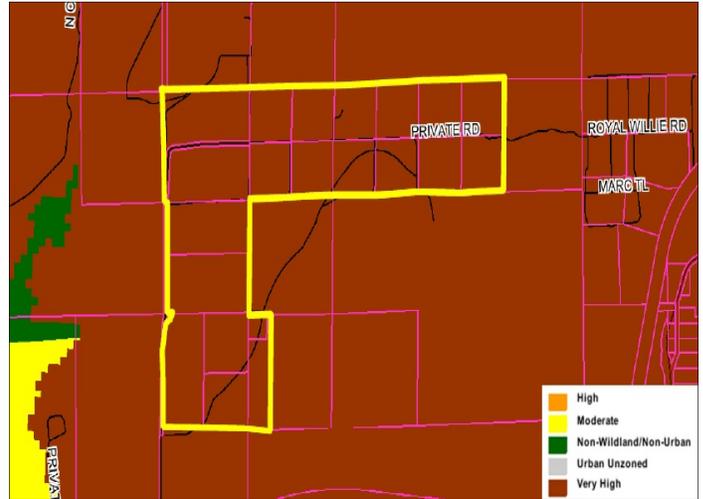

Steep Slope (Greater than 25%)

Wetlands

Habitat Evaluation Model

Fire Hazard Severity Zones

## Context

This item is considered a mapping error. These 20 parcels were mistakenly grouped with the Bureau of Land Management (BLM) land to the north. Each of the parcels is privately owned and most of them are already developed with single family residences. As such, they are proposed to change to Rural Lands 40 and Semi-Rural 10, respectively. The SR-10 area would reflect existing parcelization and the larger RL-40 parcels reflects the adjacent land use designations. The changes would not result in any additional subdivision potential.

## General Plan Consistency

*Policy LU-1.1 Assigning Land Use Designations. Assign land use designations on the Land Use Map in accordance with the Community Development Model and boundaries established by the Regional Categories Map.*

The Semi-Rural 10 and Rural Lands 40 designations are consistent with policy LU-1.1 because each proposed designation is reflective of existing parcelization and nearby Land Use designations.

ME103

Wetlands

Floodplain

Habitat Evaluation Model

Fire Hazard Severity Zones

### Context

These two properties were recently purchased by the Pacific Southwest Railway Museum to add to their existing property at this site. As such, a designation change from Semi-Rural 4 to Public/Semi-Public is proposed.

### General Plan Consistency

*Policy LU-2.4 Relationship of Land Uses to Community Character. Ensure that land uses and densities within any Regional Category or Land Use Designation depicted on the Land Use Map reflect the unique issues, character, and development objectives for a Community Plan Area, in addition to the General Plan Guiding Principles.*

The Public/Semi-Public Facilities designation is consistent with Policy LU-2.4 because it is the appropriate designation for a non-profit museum association, and the Pacific Southwest Railway Museum is a valued cultural institution in the Campo community and an attraction for visitors to the area.

ME104

Agriculture

Sensitive Habitat

Habitat Evaluation Model

Fire Hazard Severity Zones

## Context

This property is a Board referral/property owner request to return to split zoning on the northern APN of the single legal lot. Some miscommunication with General Plan staff in 2004-2005 occurred and the property owner was under the impression that his split zoning on the northern APN of the legal lot would be retained with the General Plan Update, but it was not. The property owner wants to be able to put his residential accessory structure on the northern APN. Staff proposes to return the property to its less intensive previous split of C-36 and Rural Residential zoning, along with a GP designation split of Rural Commercial and SR-4.

## General Plan Consistency

*Policy LU-2.4 Relationship of Land Uses to Community Character. Ensure that land uses and densities within any Regional Category or Land Use Designation depicted on the Land Use Map reflect the unique issues, character, and development objectives for a Community Plan Area, in addition to the General Plan Guiding Principles.*

The Semi-Rural 4 designation is consistent with Policy LU-2.4 because even though this area of Oak Drive contains several parcels with some commercially-designated land, this area still maintains a semi-rural residential character. Even with the proposed change, the property would still maintain more than an acre of commercial land, fronting Oak Drive, while providing more area for the property owner's desired residential accessory structure.

# 6 - 141 LAND USE CLEAN-UP

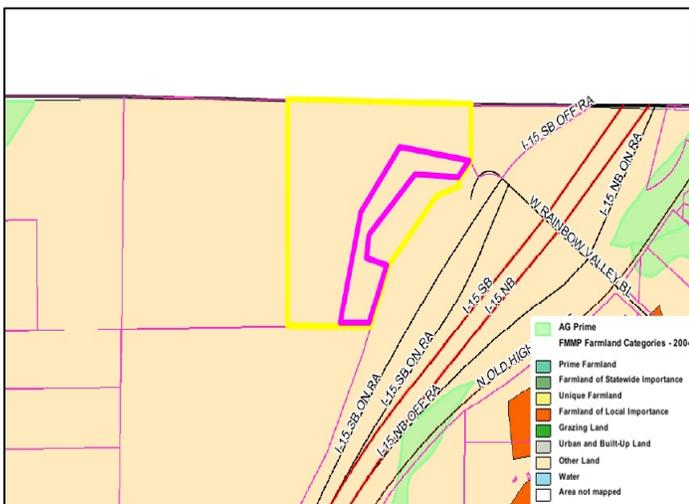

RB4

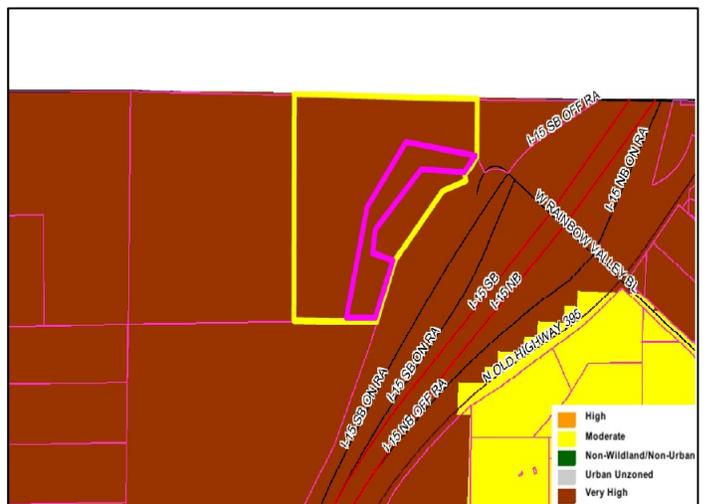

Steep Slope (Greater than 25%)

Habitat Evaluation Model

Agricultural Lands

Fire Hazard Severity Zones

## Context

This property was omitted from the changes made during the mapping of the General Plan Update. The Board intended to include the additional commercial area in the Land Use map, but it was inadvertently left off. Approximately six acres of commercial would be added to the existing 3-acre commercial area.

## General Plan Consistency

*Policy M-6.1 Designated Truck Routes. Minimize heavy truck traffic near schools and within Villages and Residential neighborhoods by designating official truck routes, establishing incompatible weight limits on roads unintended for frequent truck traffic, and carefully locating truck intensive land uses.*

While the proposed designation change would not involve designating official truck routes, the proposed C44 (Freeway Commercial) zoning and intended service station would be located right behind an existing truck weigh station and would likely involve services catered to semi-trucks. Such a use at this west side of I-15 site would help to limit the circulation of semi-trucks on the east side of I-15, where most of the population of Rainbow resides.

## Context

This property was recently purchased by the County Department of Parks and Recreation for open space. The proposed change is to re-designate one 93-acre parcel from RL-40 to Open Space-Conservation. This purchase adds to the existing County open space preserves to the south and east, to further protect the sensitive habitats found in the mesas and canyons around Mount Olympus.

## General Plan Consistency

*Policy COS-1.1 Coordinated Preserve System. Identify and develop a coordinated biological preserve system that includes Pre-Approved Mitigation Areas, Biological Resource Core Areas, wildlife corridors, and linkages to allow wildlife to travel throughout their habitat ranges.*

The Open Space-Conservation designation is consistent with policy COS-1.1 based on the following:

- This acquisition would add to the County-owned open space to the south and east as part of a proposed MSCP preserve area in the draft North County MSCP Plan.
- This acquisition will protect a critical linkage in an existing wildlife corridor that extends from Riverside County down to the Pala Indian Reservation.

RM101

Steep Slope (Greater than 25%)

Agricultural Lands

Habitat Evaluation Model

Fire Hazard Severity Zones

## Context

These 11 parcels were recently purchased by the County Department of Parks and Recreation. The proposal is to re-designate the 806 total acres from Rural Lands 40 to Open Space-Conservation.

## General Plan Consistency

*Policy COS-1.1 Coordinated Preserve System. Identify and develop a coordinated biological preserve system that includes Pre-Approved Mitigation Areas, Biological Resource Core Areas, wildlife corridors, and linkages to allow wildlife to travel throughout their habitat ranges.*

The Open Space-Conservation designation is consistent with Policy COS-1.1 because it would expand the wildlife corridor around Iron Mountain and preserve stretches of sensitive oak woodlands.

RE: 2013 GENERAL PLAN CLEAN-UP DRAFT PLAN

At the May 2, 2013, meeting, the Ramona Community Planning Group reviewed the proposed changes and clarifications that included County wide policy changes and Ramona Land Use Map changes presented in the 2013 General Plan Clean-up Draft Plan. The following motion was made:

**MOTION: TO SUPPORT GPA 12-007, DRAFT 2013  
GENERAL PLAN CLEAN-UP.**

The motion passed 12-0-1-0-2, with 1 member abstaining/  
stepping down from the vote and 2 members absent.

Sincerely,

*Kristi Mansolf, Secretary*

*JOP*  
JIM PIVA, Chair

## Context

This property was incorrectly designated Open Space-Conservation during the General Plan Update due to a mapping error. To correct this error, the proposal is to change the designation to Public/Semi-Public Facilities. The parcel is located at the intersection of Calle Ambiente and Del Dios Highway. The property is owned by the Rancho Santa Fe Fire Protection District with existing facilities on the property.

## General Plan Consistency

See the General Plan Land Use Element, page 3-17 for a description of the Public/Semi-Public Facilities designation. Fire stations receive the Public/Semi-Public Facilities designation.

Fire Hazard Severity Zones

## Context

This property was incorrectly designated as Public/Semi-Public Facilities during the General Plan Update due to a mapping error. To correct this error, the proposal is to change the designation to Semi-Rural 2, to match the surrounding properties. This change would not apply to the southeast corner of the parcel, as shown on the maps. This corner of the parcel is currently designated Specific Plan Area (SPA) and would retain that designation, as part of the Rancho Cielo Specific Plan.

## General Plan Consistency

*Policy LU-1.1 Assigning Land Use Designations. Assign land use designations on the Land Use Map in accordance with the Community Development Model and boundaries established by the Regional Categories Map.*

The Semi-Rural 2 designation is consistent with policy LU-1.1 because the proposed SR-2 designation is surrounded by properties with SR-2 designations and is located entirely within the Semi-Rural Regional Category on the Regional Categories Map.

Fire Hazard Severity Zones

### Context

This one-half acre parcel has a General Plan designation that is inconsistent with its zoning designation due to a mapping error. The property is currently zoned C36, but has a General Plan designation of Village Residential 15. To correct this error, the proposal is to change the General Plan designation to Neighborhood Commercial. The parcel designation change will make it consistent with the parcels to the north in the same shopping center, which are designated Neighborhood Commercial.

### General Plan Consistency

*Policy LU-11.1 Location and Connectivity. Locate commercial, office, and industrial development in Village areas with high connectivity and accessibility from surrounding residential neighborhoods, whenever feasible.*

The Neighborhood Commercial designation is consistent with policy LU-11.1 because the property is developed within an existing shopping center along a major Mobility Element road with transit service (Jamacha Boulevard), and the shopping center is surrounded by high density Village Residential designated neighborhoods.

VC102

Steep Slope (Greater than 25%)

Floodplain

Wetlands

Habitat Evaluation Model

### Context

These parcels, formerly known as Lilac Ranch, were sold to Caltrans for use as mitigation land. As such, the proposal is to change the designations from Semi-Rural 2 and Rural Lands 20 to Open Space-Conservation. The parcels are located approximately three miles east of I-15 in northwest Valley Center.

### General Plan Consistency

*Policy LU-11.1 Location and Connectivity. Require the protection of intact or sensitive natural resources in support of the long-term sustainability of the natural environment.*

The Open Space-Conservation designation is consistent with Policy LU-11.1 because the property contains large areas of sensitive habitats, including wetlands, oak woodlands, and Coastal sage scrub.

VDO102

Steep Slope (Greater than 25%)

Habitat Evaluation Model

Agricultural Lands

Fire Hazard Severity Zones

## Context

These two parcels that consist of four acres were transferred from public to private ownership. A General Plan designation change from Public/Semi-Public Facilities to Limited Impact Industrial is proposed, to make the General Plan Land Use designation consistent with the zoning, which was changed to M52 (Limited Impact Industrial) through a Rezone.

## General Plan Consistency

*Policy LU-11.2 Compatibility with Community Character. Require that commercial, office, and industrial development be located, scaled, and designed to be compatible with the unique character of the community.*

The Limited Impact Industrial designation is consistent with Policy LU-11.2 because the property and adjacent properties are already zoned Industrial and the closest residences are a half mile away, thus reducing the potential for impacts to residents from industrial activity.

# 6 - 171 LAND USE CLEAN-UP

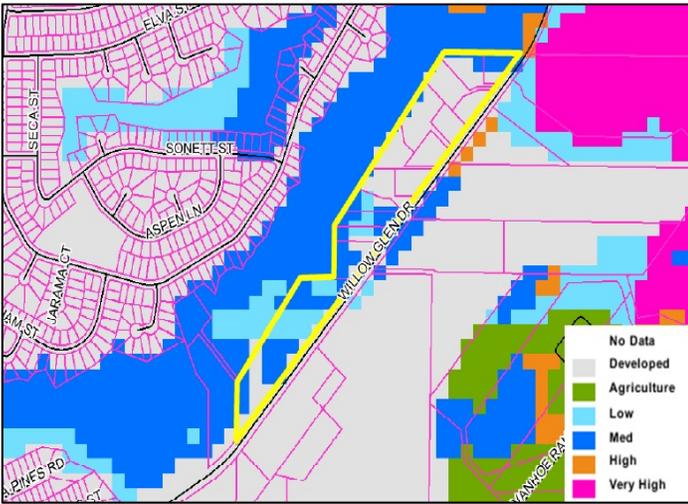

VDO103

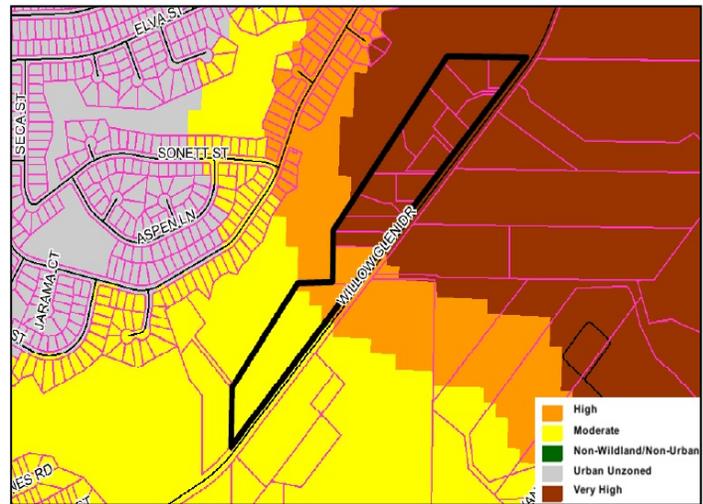

Step Slope (Greater than 25%)

Floodplain

Habitat Evaluation Model

Fire Hazard Severity Zones

## Context

VDO 103 involves 15 parcels, covering 26 acres. The current designation of VR-2 is considered a mapping error, that didn't reflect the desire of the community to have a designation that considers the slope on the property. The proposal is to change these parcels to SR-0.5, which is a slope dependent category.

## General Plan Consistency

*Policy LU-9.2 Density Relationship to Environmental Setting. Assign Village land use designations in a manner consistent with community character, and environmental constraints. In general, areas that contain more steep slopes or other environmental constraints should receive lower density designations.*

The SR-0.5 designation is consistent with Policy LU-9.2 based on the following:

- These properties are adjacent to the Sweetwater River floodplain, which serves as a greenbelt buffer between the Village densities and more Semi-Rural development in the community.
- Approximately half of the area contains steep slopes with some sensitive Coastal sage scrub vegetation. The SR-0.5 designation is a slope dependent category, which would serve to limit development densities in the steep slope areas.

# 6 - 172 LAND USE CLEAN-UP

CPG Minutes

County of San Diego  
Valle De Oro Community Planning Group  
P.O. Box 936  
La Mesa, CA 91944-0936

## REGULAR MEETING MINUTES: May 7, 2013

**LOCATION:** Otay Water District Headquarters  
Training Room, Lower Terrace  
2554 Sweetwater Springs Blvd.  
Spring Valley, California 91978-2004

### 1. **CALL TO ORDER:** 7:00 PM Jack L. Phillips, Presiding Chair

Members present: Brownlee, Feathers, Fitchett, Henderson, Manning, Perry, Phillips, Reith, Schuppert, Tierney, Wollitz

Absent: Hyatt, Myers, Mitrovich

---

2) Redesignates parcels 518-020-16, 29, 35, 39, 40, 41, 46, 48, 49, 50, 51, 52, 53, 62, and 67 along the north side of Willow Glen Drive between Steele Canyon Road and Hillsdale Road. Parcels changed from Village Residential 2 to Semi-rural 0.5 (Subarea VDO103.)

PHILLIPS presented. County made an error in their mapping. The zoning should have been SR-0.5. Phillips **moved** to support the County's proposal for Subareas VDO 102 & 104 and VDO103 (Brownlee seconded.)

**VOTE: to approve 12-0-0.**

# 6 - 174 LAND USE CLEAN-UP

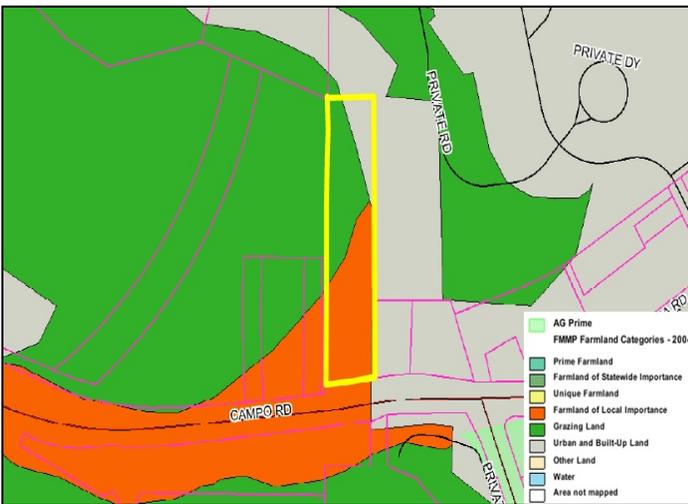

VDO104

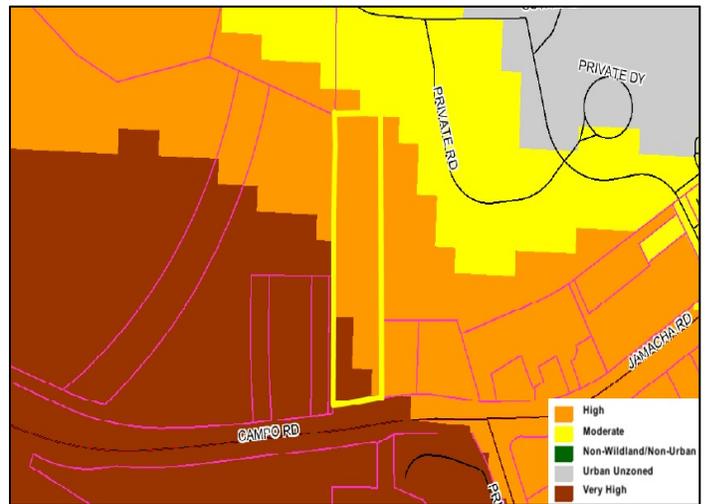

Steep Slope (Greater than 25%)

Habitat Evaluation Model

Agricultural Lands

Fire Hazard Severity Zones

## Context

This seven acre property was transferred from public to private ownership. A General Plan designation change is requested to change the parcel from Public/Semi-Public Facilities to Limited Impact Industrial to match the industrial designations on the properties to the west.

## General Plan Consistency

*Policy LU-11.2 Compatibility with Community Character. Require that commercial, office, and industrial development be located, scaled, and designed to be compatible with the unique character of the community.*

The Limited Impact Industrial designation is consistent with Policy LU-11.2 because the property is close to properties that are already zoned Industrial and the closest residences are a half mile away, thus reducing the potential for impacts to residents from industrial activity.

#### b. 2013 General Plan Clean-up:

1) Redesignates parcels 506-010-62 and 65 and 5060-200-20 on Campo Road near Jamacha Road from Public/Semi Public to Limited Impact Industrial (Subareas VDO 102 & 104.)

PHILLIPS presented. Parcels are in location with difficult access. He believes that Limited Impact Industrial zoning (M52) is a good use for the parcels. Item will be combined with the following item for vote.

---

PHILLIPS presented. County made an error in their mapping. The zoning should have been SR-0.5. Phillips **moved** to support the County's proposal for Subareas VDO 102 & 104 and VDO103 (Brownlee seconded.)

**VOTE: to approve 12-0-0.**
