Subject: RE: Soitec Internal Team Meeting
Date: Friday, September 20, 2013 11:27:37 AM

As a heads up for this meeting – we want to convey a sense of urgency. We are hoping to get the EIR out for public review in a few short weeks, and we are beginning to brief management next week. As much as possible, Ashley needs to know if the various sections are generally looking to be adequate – if Dudek has made a good effort to respond to previous comments.

Also keep in mind that the applicant has agreed to pay OT to expedite; so if you are able to work a little extra time to complete these reviews, that would really help.
