Subject: Opposition to Road 3

1/ 14 /2009
Bob Citrano

You may recall that on July 23,2008 approximaely 150+ Valley Center residents filled the chambers in a show of community support to voice our objections to then ROAD 3A. I spoke at that hearing and now I wish to speak again against ROAD 3, as shown on the GP2020 Mobility Maps, from W. Lilac Rd to Old Hwy 395. As a community we objected for many,many reasons which I will not restate at this time but which can be heard from the presenters on the tape. You may wish to review that tape in case you have forgotten. We as a community are still not in favor of the new ROAD 3 for all the same valid reasons. At that hearing Mr. Cox, Ms. Jacob and Ms. Pam Slater-Price voted for the people of Valley Center. Mr. Horn you voted against the people in your district and Mr. Roberts was conveniently absent when the vote was taken. I thank those who chose to support the people, as apposed to siding with developers and special interests who would rather spend our tax dollars foolishly as well as carve up the rural environment we so dearly love. I now ask you ALL and the DPLU staff to support the people of VC by eliminating ROAD 3 from the mobility maps. It is not needed,not wanted,a waste of county time and resources,a waste of tax dollars and harmful to the environment. It would also add more traffic to an already failing system as stated by DPLU's own traffic circulation modules. RECOMMEND ROAD 3 be removed!!!!!!!!!!!!

Respectfully submitted,
Jack Fox
