

Port Subcommittee

1

GENERAL DYNAMICS

NASSCO

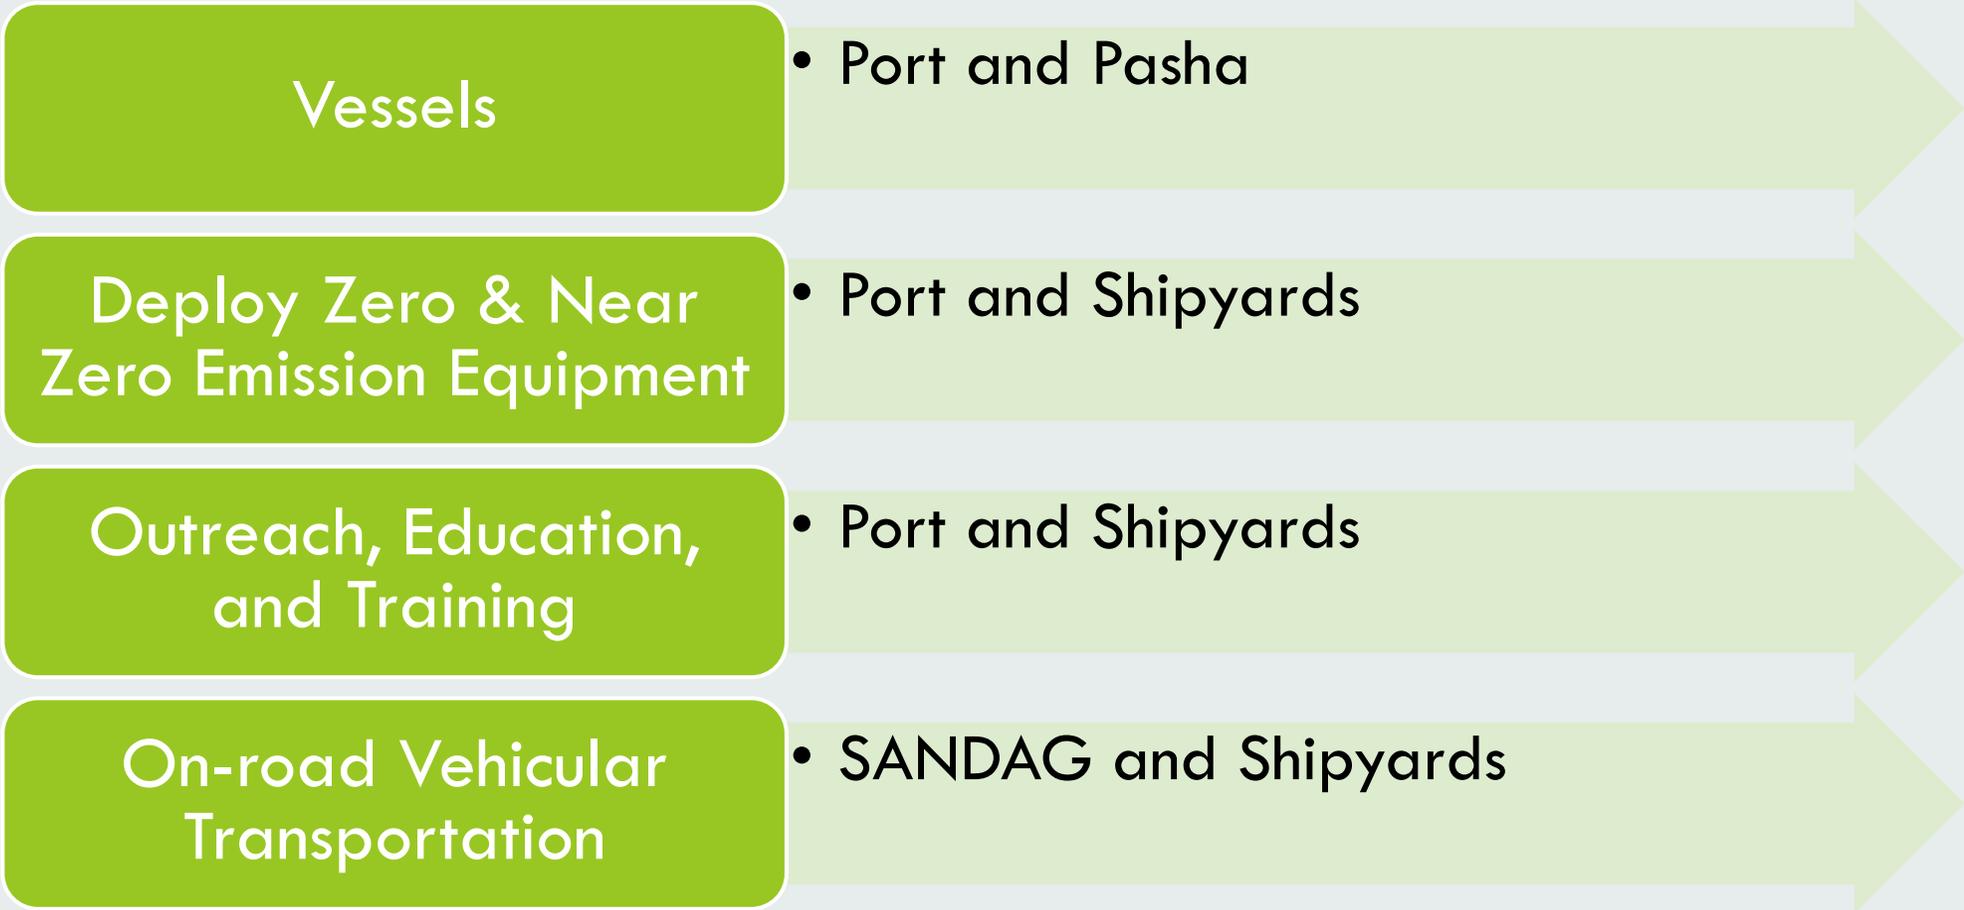

PORT Subcommittee Members

- David Flores, EHC
- Joy Williams
- Sal Razo Abrica, Teamsters
- Larry Hofreiter, Port
- Philomena Marino, Resident
- Roman Partida-Lopez, GLI
- Nick Popaditch, US Navy
- Sara Giobbi, NASSCO
- Josefina Khalidy, Port
- Sophie Sylvestri, Pasha

Overview: Strategy Directions

Vessels

3

Vessel Speed Reduction (VSR)

- Explore updating and expanding VSR Program (Port, 2021)

Shore Power or Equivalent System

- Pilot test ship emission reduction technology (Pasha, 2024)

Tug and Ferry Technology

- Evaluate options to implement electric tug and/or ferry technology (Port)

Deploy Zero & Near Zero Emission Equipment

4

Electric Cargo Handling Equipment (CHE)

- Facilitate transition to ZE CHE (Port)
- Attain 92% DPM and 78% NOx reduction by 2025 (Port)

Zero / Near Zero Equipment

- Require ZE or Tier 4 air compressors (Shipyards, 2021)
- Pursue ZE / NZE for on-off-road equipment (Shipyards)

Outreach, Education, and Training

5

Promote best practices for reducing diesel, VOC and other emissions from ship repair activities

- Provide annual trainings on best practices to ship repair contractors (Shipyards, 2021)

Promote ZE Technologies

- Hold a demonstration event of ZE technologies (Port, 2021)

On-road Vehicular Transportation

6

Reduce emissions from
single occupancy
vehicular transportation

- Promote participation in alternative transportation (Shipyards)
- Grade separation of rail to reduce traffic queuing and emissions (SANDAG)

Recommendation

7

In lieu of the Port Section, create two new sections:

- (1) Working Waterfront Activities (Port, Navy, Shipyards)
- (2) Regional Actions
