

**SAN DIEGO AIR POLLUTION CONTROL DISTRICT  
STATE TERRITORIAL WATER (STW) ENGINE NOTIFICATION**

<b>Applicant Name</b>	
<b>Contact Name</b>	
<b>Contact Mailing address</b>	
<b>Contact Email</b>	
<b>Contact Phone Number</b>	
<b>Project Name</b> <i>(for example, undocking of vessel A)</i>	

Engine Information		Engine for this Project			
		1	2	3	4
<b>PERP Number</b>					
<b>Engine Nameplate Data</b>	<b>Make</b>				
	<b>Model</b>				
	<b>Bhp</b>				
<b>Engine Exhaust Emission in (g/bhp-hr)</b>	<b>NOx</b>				
	<b>CO</b>				
	<b>VOC</b>				
	<b>PM</b>				
	<b>SOx</b>				
<b>Operating Location</b>					
<b>Operating Date</b>					
<b>Maximum Operating Hours per Day</b>					
<b>Total Operating Hours for Project</b>					

Please attach the following:

- (1) Copy of PERP certificate for each engine and equipment unit.
- (2) Supporting documents for the engine exhaust emission data (manufacturer's specifications, manufacturer's exhaust emissions, etc.) if the PERP certificate is not available.
- (3) Calculations showing the estimation of actual emissions expected for the project.
- (4) If the project was previously granted an authorization to operate in STW in San Diego County, please provide a copy of the authorization.

*Note: If a project is determined to trigger an air quality impact analysis (AQIA), additional fees will apply and further information will be requested, including exhaust height from water surface, exhaust flow rate, temperature and direction, plot plan showing exhaust location with respect to vessel, and a map of the operating location.*
