

Off-Road Construction Equipment

The San Diego County Air Pollution Control District (APCD) administers several state-funded grant programs to cover significant portions of the cost of replacing or repowering eligible equipment, which is then scrapped.

Grant applications are accepted for a limited time each year.

- When the grant program is opened, you can apply through the APCD [Citizen Access online application system](#).
- As the grant application window is limited, potential **OFF-ROAD CONSTRUCTION EQUIPMENT** applicants may wish to gather legible electronic copies of the needed documents in advance:

| General Requirement | Acceptable documents may include: |
|--|--|
| Documents showing usage of the existing engine for the past 24 months | <ul style="list-style-type: none"> • Mileage logs • Hour meter records • Repair work orders • Fuel records |
| Anticipated costs of replacement engine or equipment performing the same function as the existing unit | Written estimate (quote) from an equipment dealer documenting the cost of each piece of replacement equipment and—if applicable—retrofit device(s). |
| Certification level of proposed engine | CARB Engine Executive Order or EPA Engine Certificate of Conformity for replacement engine (from the equipment dealer) |
| Applicant certification of compliance with federal, state, and local air quality regulations | Grant Program Regulatory Compliance Statement , signed after the grant period officially opens. |
| Tax Forms | <ul style="list-style-type: none"> • A completed current federal Form W-9 Taxpayer Identification Number and Certification, AND • A completed current California Form 590 Withholding Exemption Certificate |
| Description of the existing equipment and engine | Legible photographs of: 1) equipment serial number tag, 2) engine serial number tag, and 3) for certified engines, the emission control label (showing EPA engine family name). |
| DOORS Fleet information | Documentation must include ALL of the following information from DOORS: <ul style="list-style-type: none"> • Compliance Snapshot • List of Vehicle Information • Fleet Compliance Summary Statement • Certificate of Reported Compliance |

Partially funded through California Climate Investments, a statewide program that puts billions of Cap-and-Trade dollars to work reducing greenhouse gas emissions, strengthening the economy, and improving public health and the environment—particularly in disadvantaged communities.

| General Requirement | Acceptable documents may include: |
|--|--|
| | <ul style="list-style-type: none"> Signed current year Responsible Official Affirmation of Reporting (ROAR) Form for diesel fleets and/or Reporting Attestation Form for Large Spark Ignition (LSI) fleets. |
| Proof you have owned the equipment for the past 24 months and there is no lienholder on the title. | Bill of sale for the existing equipment, maintenance/service records, or other documentation approved by the APCD |
| If active military service during the previous 24-month period prevents documentation of title, registration, usage or California operation requirements during the previous 24 months | DD Form 214, Certificate of Release or Discharge from Active Duty |

Finally, if you are planning to apply for a grant, please keep the following recommendations in mind:

- **DO NOT PURCHASE NEW EQUIPMENT YET!** New equipment funded by this program can only be ordered or purchased once the contract is signed between the equipment owner and the APCD.
- **KEEP EXISTING EQUIPMENT IN OPERATION!** Existing equipment must be in operational condition and operating at a similar activity level to that listed in the application until the equipment has been relinquished to an APCD-approved dismantler.
- **STAY COMPLIANT!** Equipment must remain compliant at all times with all applicable federal, state, or local regulations, and all applicable regulatory advisories, without the assistance of any grant funding requested in the application.
