

COUNTY OF SAN DIEGO
AIR POLLUTION CONTROL DISTRICT

NOTICE OF PUBLIC HEARING

NOTICE, pursuant to State of California Health and Safety Code Section 44363, is hereby given of a public hearing on October 16, 2019, at 9:00 a.m., before the Air Pollution Control Board (Board) of the County of San Diego, in the Campus Center Chambers, County Operations Center, 5520 Overland Avenue, San Diego, California, 92123 for the purpose of discussing and receiving public comments on the 2018 Air Toxics "Hot Spots" Program Report for San Diego County.

The California Air Toxics "Hot Spots" Information and Assessment Act was enacted by the Legislature in 1987. It requires facilities to quantify emissions of toxic air contaminants, conduct a public health risk assessment for emissions of concern, and notify the affected public if there is a significant health risk. The Air Pollution Control District is the implementing agency for San Diego County and is required to publish an annual report summarizing program efforts and results. The Air Pollution Control Board will hold a public hearing on the report to discuss its findings. The report shows, based on estimates by the California Air Resources Board, that more than 62.8 million pounds of toxic air contaminants are emitted annually from mobile, area, and natural sources in San Diego County. The report also shows that industrial sources emit more than 1.5 million pounds annually in San Diego County.

Written comments on the report are invited. Comments should be addressed to:

Archi dela Cruz, Senior Engineer
San Diego County Air Pollution Control District
10124 Old Grove Road
San Diego, CA 92131

The report may be examined at the Air Pollution Control District Headquarters, 10124 Old Grove Road, San Diego, California, 92131, or by visiting the District's website at https://www.sdapcd.org/content/sdc/apcd/en/Rule_Development/Public_Hearings.html. Specific information with respect to this matter may also be obtained by calling Archi dela Cruz at (858) 586-2732.
