

**REGULATION X. STANDARDS OF PERFORMANCE FOR NEW STATIONARY SOURCES (NSPS)** (Rev. Effective January 29, 2020)

The provisions of Part 60, Chapter I, Title 40, of the Code of Federal Regulations, (40 CFR 60), applicable to the subparts listed in this Regulation are hereby adopted by reference on the date shown and made part of the Air Pollution Control District Rules and Regulations. Whenever any source is subject to more than one rule, regulation, provision, or requirement relating to the control of any air contaminant, in cases of conflict or duplication the most stringent rule, regulation, provision, or requirement shall apply.

All new sources of air pollution and all modified or reconstructed sources of air pollution shall comply with the applicable standards, criteria, and requirements set forth herein. For the purpose of this Regulation, the word “Administrator” as used in 40 CFR 60 shall mean the Air Pollution Control Officer of the San Diego County Air Pollution Control District, except that the Air Pollution Control Officer shall not be empowered to approve alternate test methods, alternate standards, or work practices. Other deviations, if any, from the provisions of 40 CFR 60, which are adopted by the Air Pollution Control Board are noted in the reference to the affected Subpart.

Any new Subpart promulgated after the date of adoption of this Regulation shall be submitted to the Air Pollution Control Board for adoption by reference. Subparts adopted by reference shall include subsequent amendments of any Subpart, no earlier than 30 days after public notice of the proposed changes is published in a newspaper of general circulation in the District, and outreach to affected sources and the Air Pollution Control Board has been conducted.

The U.S. Environmental Protection Agency (EPA) retains concurrent enforcement authority for these standards pursuant to Section 113 of the federal Clean Air Act, as amended, if the EPA Administrator desires to exercise it, including those not yet adopted by the Air Pollution Control District.

The addition of federal Subparts by reference to Regulation X shall take effect and be in force on the date of delegation of enforcement authority to the San Diego County Air Pollution Control District by EPA.
