Budgetary Information

General Budget Policies

An operating budget is adopted each fiscal year by the Board of Supervisors for the governmental funds. The annual resolution adopts the budget at the object level of expenditures within departments. Annual budgets are not required to be adopted for the Tobacco Securitization Joint Special Revenue Fund; and the Debt Service and Capital Projects Funds (other governmental funds). Certain annual appropriations are budgeted on a project or program basis. If such projects or programs are not completed at the end of the fiscal year, unexpended appropriations, including encumbered funds, are carried forward to the following year with the approval of the Board of Supervisors.

Appropriations may also be adjusted during the year with the approval of the Board of Supervisors. Additionally, the County Budget Act authorizes the Chief Administrative Officer (CAO) and/or Auditor and Controller to approve transfers within a department as long as overall appropriations of the department are not increased. Such adjustments are reflected in the final budgetary data. Accordingly, the legal level of budgetary control by the Board of Supervisors is the department level.

The schedule of revenues, expenditures, and changes in fund balance - budget and actual for the General Fund, Public Safety Fund and the Tobacco Endowment Fund that is presented as Required Supplementary Information was prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

The Original Budget consists of the adopted budget plus the budget carried forward from the prior fiscal year. Accordingly, encumbrances that are subject to automatic re-appropriation are included as part of the original budget. The County adopts its budget by June 30 of the prior fiscal year. The final budget includes the original budget plus amended budget changes occurring during the fiscal year.

The Actual column represents the actual amounts of revenue, expenditures, and other financing sources and uses reported on a GAAP basis which is the same basis that is used to present the aforementioned original and final budget.
