Apiary Information 2020 San Diego County Crop Report Questionnaire

Dear Beekeeper,

The Agriculture, Weights and Measures department conducts an annual Crop Report Questionnaire to accurately determine the overall gross value of agriculture in San Diego county. We would like to know how your production was in 2020. This questionnaire is the sole source of information for some commodities.

Your support in completing the 2020 San Diego County Crop Report Questionnaire is critical to its success. Please keep in mind, the more producers who return a completed questionnaire - the more accurately we can determine the apiary production for our county. It is important that the total gross value for each commodity you produce is listed.

Complete the Crop Report Questionnaire on the back of this sheet. The commodity values shared are anonymous, as we only ask that your zip code be provided. The Crop Report Questionnaire is kept confidential and will be used solely for the purpose of compiling the relevant statistics to establish the 2020 values for apiary products, and will be unavailable to any other agency.

The Crop Report Questionnaire responses are due by February 28, 2021, and can be submitted by using the enclosed envelope, FAX to (858) 467-9697 or Email to Porfirio.Mancillas@sdcounty.ca.gov.

Please, if you are no longer in business, but produce apiary products in 2020, still report your apiary values for the year. Disregard this questionnaire if you already completed one for 2020.

Thank you for taking the time to complete the 2020 Crop Report Questionnaire and being a part of making San Diego's agriculture count!
