The screenshot shows the CDFA website page for Mexican Fruit Fly Regulation. The page features a navigation bar with links for News, Jobs, Contact, and Settings. The main content area is titled "Regulation and Quarantine Boundaries" and includes a pest hotline number (1-800-491-1899) and a brief description of the Mexican fruit fly (MEXFLY). The page is organized into several sections: Information, Regulated Establishments, Mexican Fruit Fly Quarantine Map Index, Sign-Up for Updates, PDEP, Exotic Fruit Files, Grower Info, and Resident Info. The Information section includes links for Section 3417, Information for Residents, Bait Treatment and Harvest Schedules, and Mexican Fruit Fly Host List. The Regulated Establishments section lists San Diego County, Valley Center Area. The Mexican Fruit Fly Quarantine Map Index section includes links for MexFly Quarantine (Google Earth file), Active Quarantines Web Application, and State Quarantine Overview map. The Sign-Up for Updates section includes a link for Mexfly Updates Email Notification. The PDEP section includes links for PDEP (Home), Pest Profiles (Target Pests and Diseases), and Preventive Release Program (Medfly). The Exotic Fruit Files section includes links for Exotic Fruit Files (Home), Eradication Notification and Boundary Maps, Insect Trapping Guide, Pest Profiles (Target Pests and Diseases), Preventive Release Program (Medfly), and Quarantine Info. The Grower Info section includes links for Introduction, Pre-harvest Treatments, Product Labels, Pre-harvest Treatment Schedules, Options for Host Fruit and Vegetables - Processing, and Certification and Post-harvest Treatments. The Resident Info section is currently empty.

# Xusuusin - Kaliya guudmar!

- Kani waa guudmar, haddii aad su'aalo qabtid, fadlan wac waaxdayada waan ku caawin doonaa!
