Here's how your input makes a difference:

- **Support Policies That Benefit You:** The data you provide informs policymakers, ensuring that agriculture remains a priority in local decision-making.
- **Promote Awareness of Your Contributions:** Your participation educates the public about agriculture's vital role in our economy, encouraging local support and investment.
- **Elevate San Diego's Agricultural Profile:** Accurate reporting showcases San Diego county's unique place among California and national leaders in agricultural production.

We understand your time is valuable, but your support is critical. The more growers who participate, the more accurate and impactful the Crop Report will be. This benefits not just you but the entire agricultural community by providing credible, anonymous data that highlights the importance of what you do.

Rest assured, your responses are kept confidential - only your zip code is required. The information will be used exclusively to compile the Crop Report and will not be shared with other agencies.

Even if you are no longer in business but grew crops in 2025, please still report your values for the year. Disregard this questionnaire if you have already completed one for 2025.
