INVITATION - FEE PROPOSAL WORKSHOPS

The County of San Diego Department of Agriculture, Weights and Measures (AWM) is committed to support consumer confidence and a fair marketplace while providing quality services in a cost-effective manner.

This proposal represents AWM's commitment to the Board to make cost recovery a regular part of business and ensure compliance with Board Policy *B-29 Fees, Grants, Revenue Contracts - Department Responsibility for Cost Recovery*. This policy directs departments to recover the cost of services from individuals or entities that receive and benefit from the services provided, except where the Board has previously directed the waiver of fees. While we are cognizant of the COVID-19 pandemic impacts on agricultural businesses, AWM has heard from customers that annual fee updates are preferred in order to avoid large increase adjustments and to allow businesses to regularly plan for fee adjustments.

The last cost recovery proposal approved by the Board was on May 1, 2019 for Fiscal Year 2019-20. The fees proposed today for Fiscal Year 2021-22 are necessary to address cost increases based on negotiated labor agreements that increase costs on July 1, 2021. There are also anticipated mandates and regulatory changes for next year. AWM has applied cost savings derived from operational efficiencies and County and State funding where applicable to mitigate the fee adjustments. Finally, AWM's cost recovery proposal for FY 2020-21 did not move forward due to the timing and uncertainty of the COVID-19 pandemic.

After completing an annual cost review, AWM is proposing increases to 6 fees, while leaving 39 fees unchanged. On average, the increase in fees is \$5 for an overall adjustment of approximately 3%.

We will present the following fee adjustments for the programs below to the County Board of Supervisors on April 7 and May 5, 2021 for approval to be effective July 1, 2021. The fee adjustments are as follows:

Price Verification Annual Registration	Current Fee	New Fee	Change
Tier 1 Registration (1-3 Point-of-Sale Stations)	\$143	\$149	\$6
Tier 2 Registration (4-9 Point-of-Sale Stations)	\$196	\$204	\$8
Tier 3 Registration (10 or more Point-of-Sale Stations)	\$245	\$256	\$11
Re-inspection Hourly Rate for Non-compliance	\$155	\$156	\$1
Commercial Weights & Measure Devices			
Non-Commercial Device Inspection Hourly Rate	\$155	\$156	\$1
Non-Registered Water Submeter Fee Hourly Rate	\$155	\$156	\$1

1. Why is AWM proposing fee adjustments when businesses are impacted by COVID?

Based on the Board of Supervisors and affected stakeholders' feedback from previous fee adjustment proposals, AWM implemented an annual cost review process. This proposal also represents AWM's commitment to the Board to make cost recovery a regular part of business and ensure compliance with Board Policy B-29 Fees, Grants, Revenue Contracts - Department Responsibility for Cost Recovery. This policy directs departments to recover the cost of services from individuals or entities that receive and benefit from the services provided, except where the Board has previously directed the waiver of fees. While we are cognizant of the COVID-19 pandemic impacts on businesses, AWM has heard from customers that annual fee updates are preferred in order to avoid large increase adjustments and to allow businesses to regularly plan for fee adjustments.

Finally, AWM's cost recovery proposal for FY 2020-21 did not move forward due to the timing and uncertainty of the COVID-19 pandemic.

2. What has AWM done to contain costs?

The practice of focusing on continuous improvement, implementing operational efficiencies, and prioritizing resources in key areas has positioned AWM to respond to regulatory changes and customer needs. AWM's continued success is also attributed to effective working relationships with various stakeholders. AWM strives to enhance programs to be effective and efficient in achieving positive outcomes and making a collective impact. Since the last fee proposal, AWM has improved operational efficiency by leveraging technology and streamlining processes. Innovations include electronic inspections, virtual outreach and training for improved compliance and efficiency. This resulted in an annual savings of \$12,000, without which fees would increase an additional 2% on average.

3. How was the fee package developed?

AWM conducted an analysis of its programs including a review of state mandates, program operations, inspection frequencies, service levels, and benchmarking to obtain a comprehensive understanding of how our fees compare to similar counties. We considered the projected program costs for Fiscal Year 2021-22, cost savings due to operational efficiencies, and available offset funding sources to determine the proposed fee adjustments. The County Auditor and Controller reviewed the supporting documentation and the methodology in this proposal to ensure compliance with County policies.
