County of San Diego
DEPARTMENT OF AGRICULTURE/
WEIGHTS & MEASURES

Learn more about what we do for you.

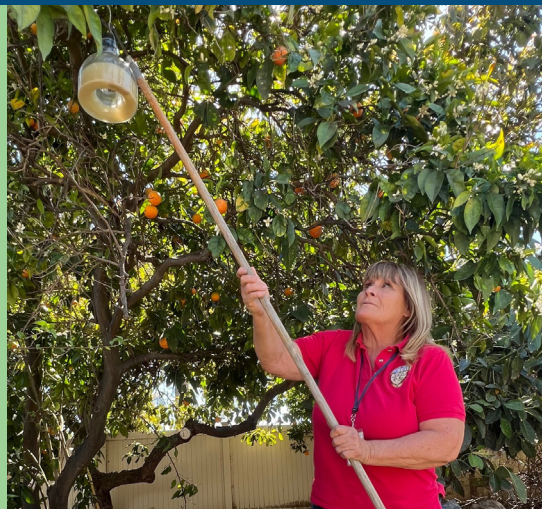

Pest Exclusion

Inspecting incoming and outgoing agricultural products to prevent the spread of insect pests and plant diseases.

Plant Pest Diagnostics Lab

Processing plant and insect samples to identify pests that can harm landscapes, the environment, and agriculture.

Pest Detection

Servicing over 9,000 insect traps annually to protect agriculture and the environment.

Integrated Pest Control

Controlling and eradicating invasive weeds, performing general weed control for roadsides and airport runways, and performing structural pest control for County facilities.

Pesticide Regulation

Monitoring Pesticide use, investigating pesticide illness and complaints, and conducting outreach to community and industry groups.

Agricultural Water Quality

Working with agricultural businesses to implement practices that prevent pollution to water resources.

Agricultural Standards

Confirming produce meet quality, packaging and marketing standards, promoting the integrity of local organic operations, and certifying agricultural producers and farmers' markets.

Weights & Measures

Verifying the accuracy of devices like gas pumps, taxi meters and scales, ensuring price accuracy and proper package labeling.
