# AGRICULTURE, WEIGHTS & MEASURES

## *Serving You...*

### PLANT HEALTH & PEST PREVENTION

Inspecting incoming and outgoing agricultural products to prevent the spread of insect pests and plant diseases.

### PEST DETECTION

Placing and monitoring insect traps Countywide to detect exotic insect pests before they become established.

### PESTICIDE REGULATION

Monitoring pesticide use, investigating pesticide illness and complaints, and conducting outreach to community and industry groups.

### AGRICULTURE STANDARDS

Confirming fresh eggs and produce meet quality, packaging and marking standards, promoting the integrity of local organic operations, and certifying agricultural producers and farmers' markets.

### ENTOMOLOGY & PLANT PATHOLOGY LAB

Providing free insect identification and plant disease diagnosis services to businesses and residents.

### INTEGRATED PEST CONTROL

Controlling and eradicating invasive weeds, performing general weed control for roadsides and airport runways, and performing structural pest control for County facilities.

### AGRICULTURAL WATER QUALITY

Working with businesses to improve cleanliness and reduce amount of water runoff from agricultural sites.

### WEIGHTS & MEASURES

Verifying the accuracy of devices like gas pumps, taxi meters and scales, and ensuring price accuracy and proper package labeling.
