INVITATION - FEE PROPOSAL WORKSHOPS

The County of San Diego Department of Agriculture, Weights and Measures (AWM) is committed to providing essential services that support public health and safety, a resilient food supply, agricultural trade, consumer confidence, and a sustainable environment for the San Diego region.

Recognizing that many customers are managing economic uncertainties due to possible interruptions to their business operations and rising input costs, AWM continues to leverage the essential use of technology and business process streamlining to limit cost increases, improve customer service, and promote regulatory compliance. AWM strives to enhance program effectiveness and efficiency to achieve positive outcomes and a collective impact. Over the last seven fiscal years, we've delivered about \$655,000 in cost savings directly reducing pressure on fee-supported programs. Without these ongoing efficiencies, current fees would be 4% or \$5 higher than they are currently. AWM is continuing to build on this momentum and planned efficiencies for FY 2026-27 are expected to generate \$10,000 in savings for fee-based programs. Examples of these efficiencies include new digital workflows, staff realignment, and focused process redesign. Without these efficiencies, the proposed fees would be roughly an additional 1% or \$2 higher. We also leverage County and State funding to further limit increases as we continue to support your business continuity and the regional economy.

This Fiscal Year (FY) 2026-27 Fee Proposal demonstrates our commitment to the Board of Supervisors (Board) that cost recovery is a regular part of business, ensuring compliance with Board Policy B-29 - *Fees, Grants, Revenue Contracts - Department Responsibility for Cost Recovery*. This Policy directs departments to recover the cost of services from those who receive and benefit from the services provided; any exceptions require the Board's approval. The Board approved the last fee proposal for the current FY 2025-26 in May 2025. This Fee Proposal aligns the resources needed with quality service for customers and represents cost recovery as a regular part of AWM's fiscal management. In addition, you, as our customers, have stated your preference for annual fee updates to plan for changes.

In FY 2024-25, the total cost of all agricultural programs was \$22.4 million. Local growers paid a fee total of \$370,000 or 2%, and out-of-county agricultural operators paid \$1.2 million or 5% of the total program costs. The remaining 94% of program costs were covered by \$6.0 million, or about 27%, from the County and \$14.8 million, or about 66%, from State and federal contributions.

You are invited to attend one of the workshops below to learn more and ask questions about these proposed fee changes. The content of these workshops will be the same, with two dates to accommodate your schedule.

FREQUENTLY ASKED QUESTIONS

1. Why is AWM proposing fee adjustments when agricultural businesses are impacted by economic uncertainties?

This proposal addresses projected cost increases provides the resources needed for AWM to continue providing services that support public health and safety, a resilient food supply, agricultural trade, consumer confidence, and a sustainable environment for the region. Through these services, the County balances environmental, community, and economic interests to enhance the quality of life for residents and visitors. The proposal would provide the resources needed for quality services that support your business continuity and the regional economy. In addition, our customers have stated their preference for annual fee updates to plan for fee changes. This Fee Proposal also demonstrates AWM's commitment to the Board that cost recovery is a regular part of business to ensure compliance with Board Policy B-29 *Fees, Grants, Revenue Contracts - Department Responsibility for Cost Recovery*. This Policy directs departments to recover the cost of services from those who receive and benefit from the services provided; any exceptions require the Board's approval. This Fee Proposal aligns the resources needed with quality service level and represents cost recovery as a regular part of AWM's fiscal management.

2. What has AWM done to mitigate cost increases?

Recognizing that many customers are managing economic uncertainties due to possible interruptions to their business operations and rising input costs, we continue to leverage the essential use of technology and business process streamlining to limit cost increases, improve customer service, and promote regulatory compliance. AWM continues to seek opportunities to contain costs where possible through efficiency gains that leverage technology to streamline operations, improve customer service, and increase regulatory compliance. Over the last seven fiscal years, we've delivered about \$655,000 in cost savings directly reducing pressure on fee-supported programs. Without these ongoing efficiencies, current fees would be 4% or \$5 higher than they are currently. AWM is continuing to build on this momentum and planned efficiencies for FY 2026-27 are expected to generate \$10,000 in savings for fee-based programs. Examples of these efficiencies include new digital workflows, staff realignment, and focused process redesign. Without these efficiencies, the proposed fees would be about an average of 1% or \$3 higher.

3. How was the fee proposal developed?

The methodology used to develop fees for AWM is an approach that is consistent across the County of San Diego (County) enterprise and is followed by other groups with fee proposals, such as the Health and Human Services Agency and the Public Safety Group. AWM conducts annual analysis of its programs including a review of State mandates, program operations, inspection frequencies, service levels, and benchmarking to obtain a comprehensive understanding of how our fees compare to similar counties. We looked at the projected program costs for Fiscal Year 2025-26, cost savings due to operational efficiencies, and available County and State funding sources to limit increased costs where applicable to come up with the proposed fee changes.
