

Is your property in the quarantine zone? (how to access the map on your phone)

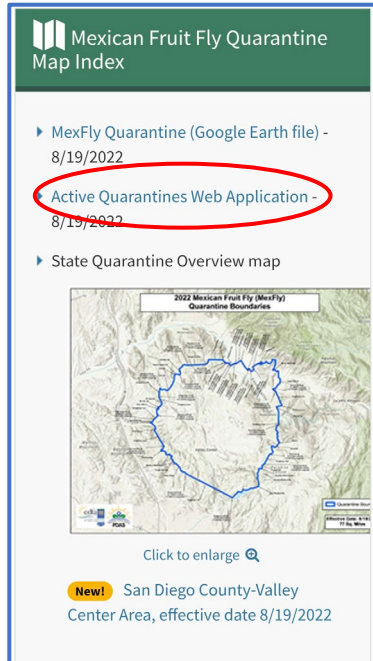

1

In the browser search bar, type: “mexfly quarantine in San Diego”.
Select the “Plant Health-MEXFLY” link

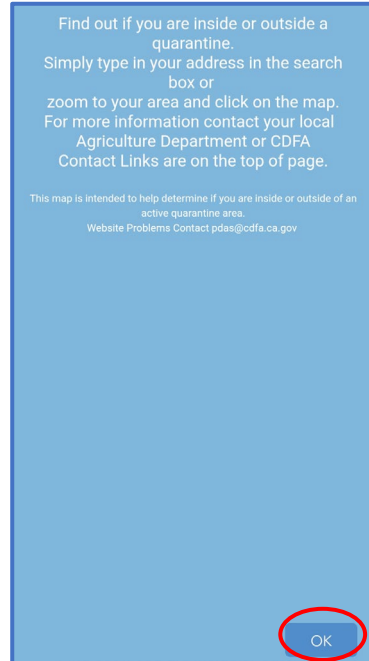

2

Scroll down and select “Active Quarantines Web Application” link

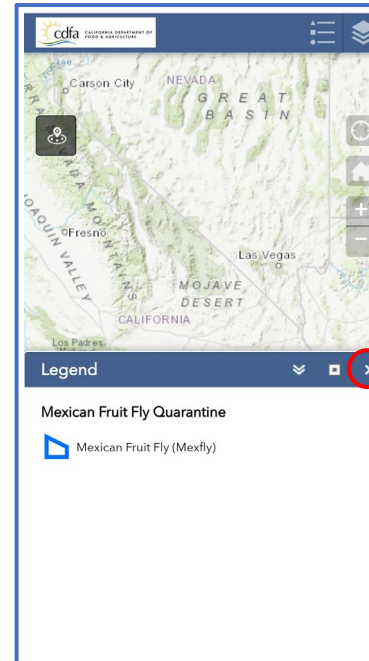

3

At the bottom, click “OK”

4

The map will pull up. It may take a minute to load.
In the legend window, click the “x” button to reveal the address line

5

In the address line, enter your address. Additionally, you can adjust the “results” buffer range, indicated by an orange circle
