MĒGAN MOORE
ASST. AGRICULTURAL COMMISSIONER/
SEALER OF WEIGHTS & MEASURES

OPERATIONAL TIRE PRESSURE POSTING DECALS

In previous years, the Department of Agriculture, Weights and Measures (AWM) provided tire pressure decals to owners/users of taximeters and licensed taximeter service agents. This decal was posted on the vehicle dashboard, and specified notification to AWM in the event of a change in rear tire size and/or transmission gears. AWM will no longer be providing this decal. It will be the responsibility of the owner/user to ensure the posting of the operational tire pressure as required by California Code of Regulations §4000(5.54) UR.1. Although this requirement does not specify the exact location for posting the decal, it should be posted in a location that is easily visible to our inspectors in order to ensure compliance during our inspections.

To assist you with compliance, we are enclosing a copy of our Taximeter Inspection Frequently Asked Questions handout. The handout is also available on our website at <http://www.sdcountry.ca.gov/awm/wm.html>.

If you have any further questions, please contact Marco Mares, Deputy Agricultural Commissioner/Sealer of Weights and Measures at (858) 694-2778.

Sincerely,

HA DANG
Agricultural Commissioner/
Sealer of Weights and Measures
