Important Reminders & Updates

1. ***Notice prior to applications*** – You must provide notice to a property operator before making pesticide applications on their property. The property operator may need to make additional notifications to other people before you apply pesticides. It's a good idea to let them know about this requirement. For more information, review Title 3 California Code of Regulations Section 6618.
2. ***If you have employees wearing respirators,*** be sure to check their medical evaluations to ensure that they are not expired. Some, but not all, healthcare providers place expiration dates on their medical evaluations.
3. ***Bee aware!*** If you intend to apply a pesticide to blossoming plants, and the label states, "toxic to bees," you must notify apiary operators within one mile of the application site at least 48 hours in advance. To find contact information for nearby apiary operators, visit this website: https://beewhere.calagpermits.org/.
4. ***For pesticide applications at Public Schools or Day Care Centers,*** you must comply with the Healthy Schools Act (HSA). For more information regarding HSA, visit this website: https://www.cdpr.ca.gov/wp-content/uploads/2024/10/hsa_faq.pdf.
5. ***With the passage of Assembly Bill 2380***, the California Food and Agricultural Code will be amended to allow increases in the maximum annual registration fees. The amendment becomes effective January 1, 2027. As a result, pesticide use registrants may experience fee increases. The County of San Diego Department of Agriculture, Weights and Measures will evaluate potential fee adjustments and conduct stakeholder outreach in spring 2027 prior to considering any proposed changes. Any proposed changes will be presented to the County Board of Supervisors and will be effective July 1, 2027.
