2020 Branch 2 & 3 Structural Pest Control Business Registration

News

Chemical-Resistant Footwear - When pesticide labeling specifies a particular type of foot protection to wear, the employee must use the type specified. Chemical-resistant shoes, boots or shoe coverings cannot be made of absorptive materials such as leather or have stitching/eyelet/lacing holes that would allow penetration.

Boot height can vary depending on personal selection and comfort but boot height must at least extend over the ankle. Pant legs must be worn outside the boots so that pesticides cannot be funneled down into the boot. Rubber irrigator boots are commonly used and comply with most pesticide labeling statements requiring chemical-resistant footwear.

Reminder: you can pay your registration fees online. Please see the enclosed flyer for step-by-step directions.

Save time! Save money! Over half of structural pest control businesses now use **CalAgPermits** to submit pesticide use reports. If you are not already using on-line reporting, give it a try. If you are a **dual-licensed company**, be sure to report your usage under the appropriate license number. Report agricultural pesticides under your agricultural license number and report structural pesticides, including second-generation anticoagulant rodenticides, under your structural license number. Visit our website at www.sdcounty.ca.gov/awm/envreg.html or contact your inspector for more information to get started.

Annual Registration Information

Structural Pest Control Operators must **register every calendar year** with the Agricultural Commissioner in all counties where they perform work. If you are dual licensed, please remember your Agricultural Pest Control Business must also be registered yearly. You must register **before** you advertise, solicit, or operate as a pest control business. The registration fee is **\$10.00** for a Branch 2 & 3 structural pest control business.

Register Register by mail, in person, or online:
