Important Reminders

1. *Protect Bees:* BeeWhere allows you to check for the presence of beehives before you write your recommendation. You play an important role in bee protection and are responsible for protecting bees when recommending pesticides. Visit: <https://beewhere.calagpermits.org> for more information.
2. *Recycle Your Pesticide Containers:* We hold recycling events in Fallbrook. If you would like more information, please call our office and ask to speak to a pesticide container recycling inspector.
3. *It is your responsibility to ensure the site and/or commodity is listed on the pesticide label* when using pest control adviser software to write recommendations. We have seen instances where software does not evaluate the label correctly. Review the actual label to ensure your recommendation is compliant with all the requirements.
4. A licensed Pest Control Adviser (PCA) written recommendation is required:
 - Anytime pesticides are used on publicly owned land such as parks, golf courses, street medians, etc.
 - When a Pest Control Business applies a Restricted Material at a non-production agricultural site such as a park, golf course, street median, etc.
 - Whenever you make production agricultural recommendations.
