Evolving and Enhancing BHS CE

General Approach for BHSA Stakeholder Planning:

- Continue internal review and maintain recent activity types, i.e.,
  - Interviews, focus groups, and listening sessions
  - Community health education/promotion events and data workshops
  - Online input form(s)
- Host various stakeholder input opportunities, incorporating discussions into existing tables and conversations, e.g.,
  - Community-based collaboratives, councils, coalitions
  - Contractor and provider-led convenings
  - Events and outreach opportunities
- Host ad-hoc, collaborative planning discussions based on input gathered with stakeholders

Evolving and Enhancing BHS CE

Transition Action Items *(BHS initiated Feb 2025)*:

1. Begin reconfiguration of existing BHS-led convenings to streamline activities with similar content and stakeholder representation and initiate input sessions

2. Pilot new community health education/promotion programming and outreach efforts, in alignment with recent community requests

3. Establish engagement opportunities centered around shared social identities of groups and communities, in addition to threading to region-based and sector-based convenings already provided by the County

4. Increase promotional efforts to raise awareness of existing opportunities for stakeholders to share, learn, and connect

Evolving and Enhancing BHS CE

BHS will continue the following while awaiting DHCS updates:

Implementation of Tailored Local Activities (Transition Action Items #1-3)

Continue to pilot and incorporate more year-round activities (e.g., listening sessions, town halls, workshops) facilitated by C&E/County engagement staff and contractors, organized by geographic region, community sector, and/or shared identity

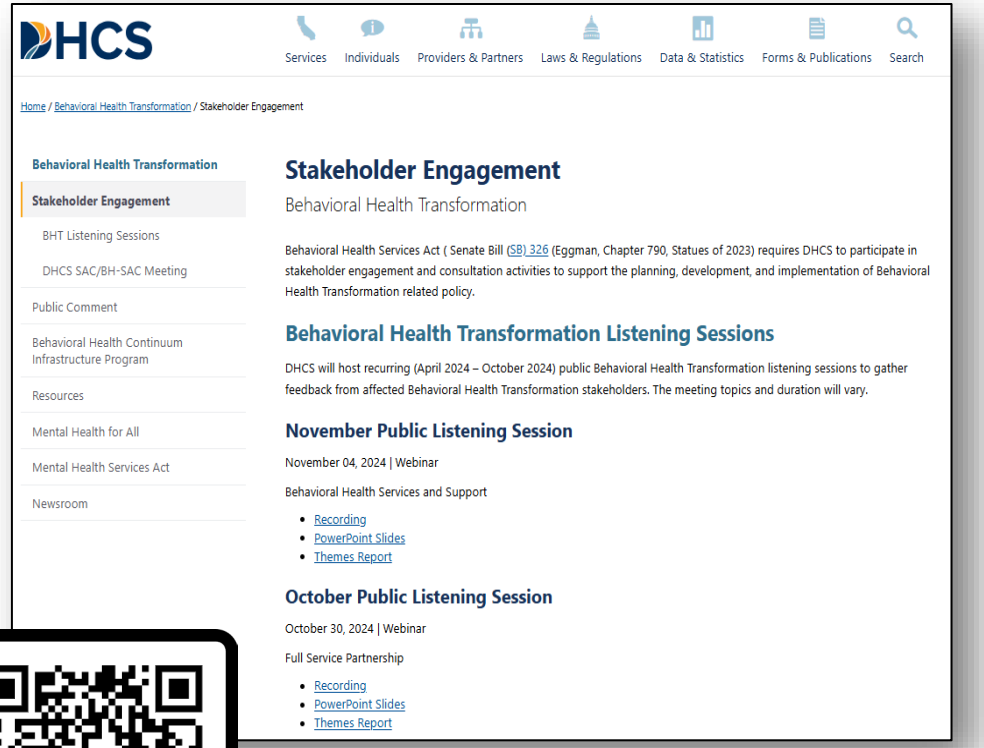

Promotion of State-Level Resources (Transition Action Item #4)

Meetings and materials available from DHCS, the California Department of Public Health (CDPH), the California County Behavioral Health Directors Association, and others regarding State Behavioral Health Transformation/Prop 1

Share Information via BHS Webpage & *Engage San Diego* Platform (Transition Action Item #4)

'Connect with BHS' webpage to be updated early 2025 as existing BHS convenings evolve to align with State Behavioral Health Transformation/Prop 1; *Engage San Diego* page(s) to be developed pending State guidance and stakeholder input
