CBHDA 2025-26 Legislative Bill Matrix - Watch and Under Review

As of 7/29/2026

Bill Author	Description	Position
AB 46 Nguyen D	Diversion. (Chaptered: 6/29/2026) Existing law authorizes a court to grant pretrial diversion to a defendant suffering from a mental disorder, on an accusatory pleading alleging the commission of a misdemeanor or felony offense, in order to allow the defendant to undergo mental health treatment. Existing law provides that a defendant is eligible for diversion if they have been diagnosed with certain mental disorders and the court finds that the mental disorder was a significant factor in the commission of the charged offense, unless there is clear and convincing evidence that the disorder was not a motivating, causal, or contributing factor to the defendant's involvement in the alleged offense. Existing law prohibits defendants charged with specified offenses, including murder, from being placed in this diversion program. This bill would require that the diagnosis or rediagnosis with a mental disorder be within 5 years before the alleged offense. Status: 6/29/2026 - Approved by the Governor. (Amended: 1/5/2026) Current law establishes a schedule of benefits under the Medi-Cal program and provides for various services, including behavioral and mental health services that are rendered by Medi-Cal enrolled providers. Current law authorizes a county, or an agency representing the county, to develop a peer support specialist certification program, subject to department approval. Current law imposes specified requirements on applicants for certification as a peer support specialist, including that the applicant be at least 18 years of age and possess a high school diploma or equivalent degree. This bill would remove the requirement of possessing a high school diploma or equivalent degree from the requirements necessary for an applicant to receive certification. Existing law, until July 1, 2026, creates the Advisory Council on Improving Interactions between People with Intellectual and Development Disabilities and Law Enforcement, under the Department of Justice, to, among other things, evaluate existing training for peace officers specific to interactions between law enforcement and individuals with intellectual and developmental disabilities. Existing law requires the council to submit a report including recommendations to the Legislature for improving outcomes of interactions with both individuals who have an intellectual or developmental disability and mental health conditions, as specified. This bill would require the State Department of Developmental Services to conduct a statewide evaluation of safety training services provided by regional centers, as specified. The bill would require the department, by July 1, 2028, to submit a report to the Legislature summarizing its findings and recommendations and would require the recommendations to address specified topics. (Amended: 7/2/2026) Existing law provides that a health care service plan or a health insurer that authorizes a specific type of treatment by a health care provider shall not rescind or modify this authorization after the provider renders the health care service in good faith and pursuant to the authorization. This bill would require an approved prior authorization for a health care service requested by an in-network provider to remain valid for the period required by the treating provider for the course of the prescribed treatment, not to exceed a period of at least one year from the date of approval, if less than one year. Because a violation of the bill by a health care service plan would be a crime, the bill would impose a state-mandated local program. This bill would also authorize the department to make those loans and grants to rehabilitate, capitalize operating subsidy reserves for, and extend the long-term affordability of housing projects that qualify as a challenged development, as defined. The bill would require the department to grant priority for these loans and grants to housing projects that are department funded and have an affordability restriction that has expired or have a remaining term of less than 10 years, or are otherwise at risk for conversion. AB 1126 Patterson R	Medi-Cal managed care plans: enrollees with other health care coverage. (Amended: 1/5/2026) Current law establishes the Medi-Cal program, which is administered by the State Department of Health Care Services and under which qualified low-income individuals receive health care services, under fee-for-service or managed care delivery systems. The Medi-Cal program is, in part, governed and funded by federal Medicaid program provisions. Under current federal law, in accordance with third-party liability rules, Medicaid is generally the payer of last resort if a beneficiary has another source of health care coverage in addition to Medicaid coverage. This bill would require the department, in the case of a Medi-Cal managed care plan enrollee who also has other health care coverage and for whom the Medi-Cal program is a payer	Internal Watch

	of last resort, to ensure that a provider that is not contracted with the plan and that is billing the plan for Medi-Cal allowable costs not paid by the other health care coverage does not face administrative requirements significantly in excess of the administrative requirements for billing those same costs to the Medi-Cal fee-for-service delivery system. Under the bill, in the case of an enrollee who meets those coverage criteria, except as specified, a Medi-Cal fee-for-service provider would not be required to contract as an in-network provider with the Medi-Cal managed care plan in order to bill the plan for Medi-Cal allowable costs for covered health care services. The bill would authorize a Medi-Cal managed care plan to require a letter of agreement, or a similar agreement, under specified circumstances, including if a covered service requires prior authorization, or if a service is not covered by the other health care coverage but is a covered service under the plan, as specified. Current law also establishes the Department of Housing and Community Development in the agency and makes the department responsible for administering various housing programs throughout the state, including, among others, the Multifamily Housing Program, the Housing for a Healthy California Program, and the California Emergency Solutions Grants Program. This bill would enact the California Housing Justice Act of 2025, which would require the department to create, by January 1, 2028, and in collaboration with specified entities, including local entities, finance plans to solve homelessness and to solve the housing unaffordability crisis, and related statewide performance metrics. Existing law, the Miles Hall Lifeline and Suicide Prevention Act, requires, among other things, the Office of Emergency Services (OES) to verify that technology that allows for transfers between 988 centers, as well as between 988 centers and 911 public safety answering points, is available to 988 centers and 911 public safety answering points throughout the state, to appoint a 988 system director, and to verify interoperability between and across 911 and 988. Existing law establishes the 988 State Suicide and Behavioral Health Crisis Services Fund and provides that 988 surcharge revenue in the fund is available, upon appropriation by the Legislature, for purposes of the act. This bill would require the California Health and Human Services Agency (agency) to annually determine whether an adequate specialized LGBTQ+ suicide prevention hotline is activated by the federal government under 988 and would make implementation of this bill contingent on the agency’s determination, as specified. (Amended: 7/2/2026) Existing federal law, the Indian Gaming Regulatory Act of 1988, provides for the negotiation and execution of tribal-state gaming compacts for the purpose of authorizing certain types of gaming on Indian lands within a state. The California Constitution authorizes the Governor to negotiate and conclude tribal-state gaming compacts, subject to ratification by the Legislature. Existing law expressly ratifies a number of tribal-state gaming compacts, and amendments of tribal-state gaming compacts, between the State of California and specified Indian tribes. The California Environmental Quality Act (CEQA) requires a lead agency to prepare, or cause to be prepared, and certify the completion of, an environmental impact report on a project, as defined, that it proposes to carry out or approve that may have a significant effect on the environment, as defined, or to adopt a negative declaration if it finds that the project will not have that effect. This bill would ratify the amendment to the tribal-state gaming compact entered into between the State of California and the Yuhaaviatam of San Manuel Nation executed on June 23, 2026. The bill would provide that, in deference to tribal sovereignty, certain actions related to that amended compact are not projects for purposes of CEQA. AB 1626 Gabriel D	Interscholastic athletics: youth sports: coaches: behavioral and mental health training. (Amended: 6/11/2026) Existing law requires the governing board of each school district to have general control of, and be responsible for, all aspects of the interscholastic athletic policies, programs, and activities in its school district, as provided, and requires the governing board of a school district to ensure that all interscholastic policies, programs, and activities in the school district are in compliance with state and federal law. Existing law authorizes the governing board of a school district to enter into associations or consortia with other governing boards for purposes of governing regional or statewide interscholastic athletics, as provided. Existing law describes the California Interscholastic Federation (CIF) as a voluntary organization that consists of school and school-related personnel with responsibility for administering interscholastic athletic activities in secondary schools and states the intent of the Legislature that the CIF, in consultation with the State Department of Education, implement specified policies relating to interscholastic athletics. Existing law, the 1998 California High School Coaching Education and Training Program, declares the intent of the Legislature to establish a California High School Coaching Education and Training Program, to be administered by school districts with an emphasis on specific components, including, among other components, sports psychology. Existing law requires every high school sports coach to complete, at their own expense, a coaching education program that meets the guidelines established by the California High School Coaching Education and Training Program. This bill would require specified trainings for coaches described in AB 1665 of the 2025–26 Regular Session to cover specified mental-health related topics, including, among other topics, trauma-informed care, as provided, and strategies of creating a positive team culture, as provided. (Amended: 6/25/2026) Existing law requires a public guardian to apply for appointment as a guardian or conservator of the person, the estate, or the person and estate if there is an imminent threat to a person’s health or safety or the person’s estate, there is no one else who is qualified and willing to act, as specified, the appointment would be in the best interests of the person, and the person is domiciled in the county. Existing law similarly requires a court to order a public guardian of a county to apply for appointment as a guardian or conservator if it appears that there is no one else who is qualified and willing to act, that the appointment as guardian or conservator appears to be in the best interests of the person, and the person is domiciled in the county. Existing law establishes the public administrator as an officer of a county. Existing law regulates the administration of estates of decedents and permits the public administrator to be appointed to administer these estates under certain circumstances. Existing law grants public administrators a variety of powers in this regard, including the right to take control of a decedent’s property, issue written certification of this fact, and summarily dispose of property, as specified. Under existing law, a written certification issued by a public administrator for these purposes is valid for 30 days after its issuance. Existing law requires a financial institution, governmental or private agency, retirement fund administrator, insurance company, licensed securities dealer, or other person, without inquiring into the truth of the written certification, without requiring a death certificate, without charge, and without court order or letters being issued, to perform specified functions, including providing the public administrator complete information concerning property held in the name of the decedent, including names and addresses of beneficiaries or joint owners, as specified. This bill would authorize a court to award sanctions of no less than \$1,000 per violation for fees paid and costs incurred for failure of a financial institution, governmental or private agency, retirement fund administrator, insurance company, licensed securities dealer, or other person, as specified, to comply with these requirements following receipt of service of notice of at least 30 days. AB 1902 Pellerin D	Secure youth treatment facilities. (Amended: 6/18/2026) Existing law requires a probation department to request that the prosecuting attorney petition the committing court for an order directing that a person confined in a secure youth treatment facility remain subject to the control of the department at the time of discharge if the person confined is determined to be physically dangerous to the public because of the person's mental or physical condition, disorder, or other problem that causes the person to have serious difficulty controlling their dangerous behavior. Existing law establishes the process for the petition, probable cause hearing, trial, continued detention, and appeal pursuant to this provision. Under existing law, if an order for continued detention is made pursuant to these provisions, the probation department has continued control over the person, except as specified, and existing law requires the department to, within 2 years after the date of the order made by a juvenile court or after conviction in criminal proceedings, file a new application for continued detention if continued detention is deemed necessary. This bill would require, if a petition is filed pursuant to these provisions, that the person who is the subject of the petition remain in custody in a secure youth treatment facility until the conclusion of the proceedings. The bill would prohibit a probable cause hearing pursuant to these provisions from being continued, except upon a showing of good cause by the party requesting the continuance. The bill would also authorize the court to base the finding of probable cause on certain hearsay statements, as specified. Existing law establishes various programs to prevent homelessness or assist persons experiencing homelessness, including the No Place Like Home Program and the Homeless Housing, Assistance, and Prevention program. This bill would require the council, by July 1, 2027, to develop and publicly issue a statewide homelessness prevention strategy that includes specified elements, including a homelessness prevention action plan for certain state agencies and evidence-based model homeless prevention practices, as specified. This bill would prohibit a health care service plan contract or a health insurance policy that is issued, amended, or renewed on or after January 1, 2027, from imposing step therapy as a prerequisite to authorizing coverage of any prescription drug used for the treatment of a serious mental illness or substance use disorder, as those terms are defined, except as specified. The bill would specify that the prohibition on step therapy does not apply when the United States Food and Drug Administration-labeled indications and usage of a drug indicate that some prior medication must be taken. Because a willful violation of this provision by a health care service plan would be a crime, the bill would impose a state-mandated local program. Status: 6/29/2026 - Read second time and amended. Existing law requires the department, subject to an appropriation for these purposes, to provide a grant to a county office of education to acquire a training program identified by the department and disseminate that training program at no cost to specified educational entities, as specified. This bill would revise and recast these provisions by (1) deleting the requirement to provide the above-described grant, (2) deleting the requirement of the department to identify the above-described evidence-based online training program, (3) instead requiring the Behavioral Health Services Oversight and Accountability Commission to develop an online training program to train school staff, pupils who are 13 years of age or older, and parents, guardians, or caregivers of pupils as part of the policy on pupil suicide prevention adopted by county offices of education, school districts, state special schools, and charter schools that serve pupils in kindergarten or in any of grades 1 to 12, inclusive, as specified. AB 2011 Hart D	Nonquantitative treatment limitations. (Amended: 6/15/2026) Existing federal law, the federal Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008 (MHPAEA), requires group health plans and health insurance issuers that provide both medical and surgical benefits and mental health or substance use disorder benefits to ensure that financial requirements and treatment limitations applicable to mental health or substance use disorder benefits are no more restrictive than the predominant requirements or limitations applied to substantially all medical and surgical benefits. Existing state law requires every health care service plan and disability insurance policy issued, amended, or renewed on or after January 1, 2021, that provides hospital, medical, or surgical coverage to provide coverage for medically necessary treatment of mental health and substance use disorders under the same terms and conditions applied to other medical conditions, as specified. This bill would prohibit a health care service plan or insurer from relying upon discriminatory factors or evidentiary standards to design a nonquantitative treatment limitation (NQTL) to be imposed on mental health or substance use disorder benefits, as specified. To ensure that an NQTL applicable to mental health or substance use disorder benefits in a classification is no more restrictive than the predominant NQTL applied to substantially all medical/surgical benefits in the classification, the bill would require a health care service plan or insurer to collect and evaluate relevant data to assess the impact of the NQTL on outcomes related to access to mental health and substance use disorder benefits and medical/surgical benefits. The bill would require specified health care service plans or insurers to perform and document comparative analyses of the design and application of each NQTL applicable to mental health or substance use disorder benefits in accordance with prescribed requirements	5. Under existing law, home- and community-based services (HCBS) approved by the United States Department of Health and Human Services are covered for eligible individuals to the extent that federal financial participation is available for those services under the state plan or waivers granted in accordance with certain federal provisions. Existing law authorizes the Director of Health Care Services to seek waivers for any or all approvable HCBS. Existing law sets forth provisions for the implementation of the Nursing Facility/Acute Hospital Transition and Diversion Waiver, which is the predecessor of the Home and Community-Based Alternatives (HCBA) Waiver, for purposes of providing care management services to individuals who are at risk of nursing facility or institutional placement, subject to federal cost neutrality. Existing law sets forth provisions authorizing the director to expand the number of waiver slots up to 5,000 additional slots. This bill would recast the above-described waiver provisions to refer to the HCBA Waiver and would delete the provision relating to the 5,000 slots. The bill would require the department, beginning in 2027, and for the HCBA Waiver period, to increase the total number of waiver slots by 10,000, in addition to any planned expansion of waiver slots federally approved as of January 1, 2026, as specified. The Miles Hall Lifeline and Suicide Prevention Act, requires, among other things, the California Health and Human Services Agency (agency) to create, no later than December 31, 2024, a set of recommendations to support a 5-year implementation plan for a comprehensive 988 system. Existing law requires the agency to convene a state 988 advisory group for purposes of advising the agency on the set of recommendations and requires the recommendations to include specified information. Existing law requires the advisory group to meet at least once per quarter until December 31, 2024. Existing law authorizes the agency to disband the advisory group on or after January 1, 2025. Existing law requires the agency, until December 31, 2029, to post regular updates, no less than annually, regarding the implementation of 988 on its public internet website. Existing law requires the prosecuting attorney in a participating county to either refer the case to the county probation department to conduct a prefiling investigation report and determine the appropriateness of program placement or, if the prosecuting attorney's office operates the program, determine if the case is appropriate for referral. Existing law requires the county probation department or prosecuting attorney's office to consider certain factors for referral, including, among others, whether the person has a violent or serious prior criminal record or has previously been referred to a diversion program and failed that program. This bill would require the prosecutor or county probation department, for certain theft offenses, including shoplifting and vandalism, to determine whether, based on certain criteria, specified defendants are eligible for a theft diversion program. The bill would require the prosecuting attorney to review their file for certain factors, including whether the offense charged involved a crime of violence or threatened violence and, if the defendant is eligible, would require the attorney to file a declaration or state for the record the grounds for the determination of the defendant's eligibility. SB 420 Padilla D	Property tax: welfare exemption: detention facilities. (Amended: 7/1/2026) The California Constitution authorizes the Legislature to exempt from taxation, in whole or in part, property that is used exclusively for religious, hospital, or charitable purposes, and is owned or held in trust by a nonprofit entity. Pursuant to that authority, existing law provides for a welfare exemption under which property used exclusively for an exempt purpose and owned and operated by specified entities, including foundations, limited liability companies, or corporations meeting certain statutory requirements is exempt from taxation. This bill would specify that for the purposes of the welfare exemption provisions above, “property used exclusively for religious, hospital, scientific, or charitable purposes” shall not include property, or any portion thereof, operated as a detention facility, as defined. Existing law requires the sharing of confidential information to be governed by protocols developed in each county describing how and what information may be shared by the homeless adult and family multidisciplinary personnel team, and requires each county to provide a copy of its protocols to the State Department of Social Services. This bill would additionally authorize a city that is designated as a local health jurisdiction to similarly establish a homeless adult and family multidisciplinary personnel team, as specified. (Amended: 7/2/2026) Existing law provides for the licensure and regulation of adult alcohol or other drug recovery or treatment facilities by the State Department of Public Health and prohibits the operation of one of those facilities without a current valid license. Existing law requires the department, if a facility is alleged to be in violation of that prohibition, to conduct a site visit to investigate the allegation. Existing law requires, if the department’s employee or agent finds evidence that the facility is providing services without a license, the employee or agent to take specified actions, including, among others, submitting the findings of the investigation to the department and issuing a written notice to the facility that includes the date by which the facility is required to cease providing services. This bill would require the department, if it determines it has jurisdiction over the allegation, to assign the complaint to an analyst within 10 days of receiving the allegation and, except as specified, complete the investigation within 120 days of assigning the complaint. The bill would require the department, if it receives a complaint that	2. Oppose SB 490 Asm. Health Opposition Letter SB 490 Sen. Health OPP Letter

SB 492 Menjivar D	Youth Housing Bond Act of 2026. (Amended: 1/22/2026) The Veterans and Affordable Housing Bond Act of 2018 authorizes the issuance of bonds in the amount of \$4,000,000,000 pursuant to the State General Obligation Bond Law and requires the proceeds from the sale of these bonds to be used to finance various housing programs and a specified program for farm, home, and mobilehome purchase assistance for veterans, as provided. Current law establishes, among various other programs intended to address homelessness in this state, the Homeless Housing, Assistance, and Prevention program for the purpose of providing jurisdictions with one-time grant funds to support regional coordination and expand or develop local capacity to address their immediate homelessness challenges informed by a best-practices framework focused on moving homeless individuals and families into permanent housing and supporting the efforts of those individuals and families to maintain their permanent housing. This bill would enact the Youth Housing Bond Act of 2026 (bond act), which, if adopted, would authorize the issuance of bonds in the amount of \$1,000,000,000 pursuant to the State General Obligation Bond Law to finance the Youth Housing Program, established as part of the bond act. The bill, as a part of the program, would require the Department of Housing and Community Development to make awards to local agencies, nonprofit organizations, and joint ventures for the purpose of acquiring, renovating, constructing, and purchasing equipment for youth centers or youth housing, as those terms are defined. Existing law similarly requires a court to order a public guardian of a county to apply for appointment as a guardian or conservator if it appears that there is no one else who is qualified and willing to act, that the appointment as guardian or conservator appears to be in the best interests of the person, and the person is domiciled in the county. Existing law requires the public guardian to begin an investigation within 2 business days of receiving a referral for conservatorship or guardianship. This bill would require the public guardian to also acknowledge receipt of the referral within 2 business days and conclude the investigation within a reasonable period of time. For referrals for conservatorship, the bill would require the investigation to include a determination of whether or not a temporary or general conservatorship is warranted and would require the public guardian to inform the referring party of the investigation status upon request. Existing law requires a health facility, clinic, physician's office, or office of a group practice that uses generative artificial intelligence to generate written or verbal patient communications pertaining to patient clinical information to ensure those communications include a disclaimer that indicates to the patient that a communication was generated by artificial intelligence and instructions describing how a patient may contact a human health care provider, employee, or other appropriate person. This bill would regulate the use of artificial intelligence in connection with providing or facilitating psychotherapy services, as defined. The bill, among other things, would authorize an individual, corporation, or entity that provides or facilitates psychotherapy services to use artificial intelligence tools or systems only to assist in providing administrative or supplementary support in psychotherapy services, as specified. The bill would prohibit an individual, corporation, or entity from using artificial intelligence to record or transcribe psychotherapeutic communications or sessions or to triage or screen a person for the need for psychotherapy services unless the patient or client or their authorized representative is informed that artificial intelligence will be used and the purpose of the artificial intelligence tool or system, and the patient or client or their authorized representative provides consent, as specified. The bill would prohibit an individual, corporation, or entity from advertising or otherwise purporting to offer psychotherapy services when the services are provided through the use of companion chatbots. The bill would prohibit an individual, corporation, or entity from allowing artificial intelligence to perform certain acts, including making therapeutic decisions or detecting emotions or mental states, without review and approval by a licensed professional. Existing law grants persons involuntarily detained in state hospitals as a result of developmental or mental health disabilities specified rights, including a right to dignity, privacy, and humane care, to be free from harm, to religious freedom and practice, and to physical exercise and recreational opportunities. This bill, the Civil Detainees' Bill of Rights Act of 2026, would clarify that all persons housed or detained for purposes of civil immigration proceedings in California at any state, county, local, or private locked detention facility, including any county, local, or private locked detention facility in which an individual is housed or detained on behalf of, or pursuant to a contract with, United States Immigration and Customs Enforcement, have the legal rights and responsibilities guaranteed all other persons by the United States Constitution and federal law and the California Constitution and state law, unless specifically limited by federal or state law or regulations. Existing law establishes the Labor and Workforce Development Agency, which is composed of various departments responsible for protecting and promoting the rights and interests of workers in California, including the Division of Labor Standards Enforcement, led by the Labor Commissioner, within the Department of Industrial Relations. This bill would prohibit an employer, as defined, from using an ADS to perform certain functions and would limit the purposes for and way in which an ADS may be used. The bill would authorize a worker to request, and require an employer to provide, a copy of the most recent 12 months of the worker's own data primarily used by an ADS to make a disciplinary, termination, or deactivation decision, as specified. The bill would require an employer that primarily relied upon an ADS to make a disciplinary, termination, or deactivation decision to provide the affected worker with a written postuse notice, as specified. This bill would prohibit an employer from discharging, threatening to discharge, demoting, suspending, or in any manner discriminating or retaliating against any worker for taking certain actions asserting their rights under the bill. This bill would authorize a first responder to contact the county behavioral health agency in the county in which the individual resides or is found to request the agency file a petition to commence the CARE process. The bill would require the agency to review the request and determine whether to file a petition within 30 business days. The bill would require the agency, upon completion of the review, to notify the first responder that made the referral of specified information, including whether or not a petition was filed. Existing law requires a private detention facility operator to comply with, and adhere to, all local and state public health orders and occupational safety and health regulations. This bill, the Masuma Khan Justice Act, would authorize the State Department of Public Health to inspect an involuntary residential facility, defined as a facility that houses more than 50 individuals overnight, restricts residents' ability to enter or leave, as specified, and provides specified onsite services, for the limited purpose of ensuring sanitary, hygienic, and safe conditions, using standards and inspection protocols consistent with those applied to licensed residential health facilities. The bill would authorize unnoticed inspections under specified conditions. The bill would require the department, within 30 days of completing an inspection, to submit a report to the Legislature. Existing law, the Lanterman-Petris-Short Act (LPS Act), generally provides for the evaluation, treatment, and civil commitment of persons with mental health disorders and other specified persons. Existing law authorizes, under a superior court order, an evaluation of a person alleged, as a result of mental disorder, to be a danger to themselves or others or to be gravely disabled, and provides the forms to use for these evaluations. The CARE Act authorizes a court to terminate a respondent's participation in the CARE process if the court determines that the respondent is not participating in the CARE process or is not adhering to their CARE plan, as specified, and authorizes the court to order the court-ordered evaluation under the LPS Act. If the court finds the petitioner has made a prima facie showing that the respondent is, or may be, a person eligible for the CARE program, the court is required to order the county behavioral health agency, or their designee, as specified, to submit a written report to the court with specified information, including, but not limited to, a determination whether the respondent meets, or is likely to meet, the criteria for the CARE process and conclusions and recommendations about the respondent's ability to voluntarily engage in services. This bill would require the written report to include conclusions about whether the respondent is likely to need a higher level of care than is available under the CARE Act and, if so, recommendations about the appropriate level of care and the necessary steps to obtain that level of care for the respondent and remove the authorization for a court to dismiss the petition if the respondent is only likely to enroll in behavioral health treatment. If the court intends to dismiss a petition because the respondent needs a higher level of services, the bill would authorize the court to order the county to conduct a prepetition screening and hold the CARE petition open until the screening is complete.
