About Edgemoor

Edgemoor is a specialized licensed care facility providing skilled nursing and long-term rehabilitative services. With a dedicated team of healthcare professionals, Edgemoor focuses on enhancing the quality of life for its residents through personalized care, engaging activities, and a supportive community atmosphere.

Edgemoor is a nationally recognized, award-winning facility that has been consistently ranked as one of the top nursing homes in the country for over a decade.

Admissions and Eligibility

Due to the specialized care Edgemoor provides, most admissions come directly from an acute care hospital or an acute psychiatric hospital.

All Edgemoor residents are adults ages 18+ who need a higher level of care and an increased number of staff compared to other nursing homes due to their complex needs. Most residents need around-the-clock care and many live at Edgemoor for the remainder of their lives.

Services Offered

- Assistance with activities of daily living, such as eating, personal care, mobility, and taking medication
- Skilled rehabilitation services, such as physical, occupational, and speech therapy
- Clinical case management
- Specialized diet monitoring
- Daily activity and recreational programming
