AMY HARBERT
ASSISTANT DIRECTOR

Dear Community Partner,

Thank you for your interest in the County of San Diego Vector Control Program (VCP). The VCP protects public health by monitoring and controlling vectors – animals and insects that can transmit diseases to humans. We offer many free educational materials and presentations to help you, your staff, and your customers to prevent and stay safe from diseases transmitted by vectors. By ordering and making these materials available, you are helping to keep your community safer and may be saving lives.

For more information about vectors and diseases spread by vectors in San Diego County, visit our website:

www.SDVector.com.

Sincerely,
Outreach Staff
County of San Diego Vector Control Program
