### **Prepackaged Compact Mobile Food Operation Plan Submittal Package**

A prepackaged Compact Mobile Food Operation (CMFO) means an unoccupied mobile food facility that operates from an individual or from a pushcart, stand, display, pedal-driven cart, wagon, showcase, rack, or other nonmotorized conveyance and only sells prepackaged food. All prepackaged food must be properly labeled and prepackaged to prevent any direct human contact with the food product upon distribution from the manufacturer, a food facility, or other approved source. Examples of menu items that are considered prepackaged food include but are not limited to: whole uncut produce, prepackaged non-potentially hazardous snacks (chips, candy, beverages), and prepackaged potentially hazardous food (ice cream, burritos, and tamales).

This packet can be used to draw your proposed cart operation and submit to this Department for review and approval. You may draw your own plans using this document as guidance, but all items listed in this document must be represented in your submitted plans. Plans must be reviewed and approved prior to the issuance of a health permit. Operators are required to have all plans approved prior to the construction of the cart to prevent any additional costs that would be incurred if modifications are needed should changes be noted on the plans. All items provided on the following pages are required unless otherwise noted.

- Page 2 Initial each box indicating that the item is completed on the plans.
- Page 3 Sign and date acknowledging the understanding of cart restrictions and certifying that all information provided is accurate.
- Page 4-6 Complete all diagram templates. Additional sheets may be provided if necessary.
- Page 7-11 Complete all applicable supplemental documents.
- Page 12-13 Examples are provided on how to properly complete all required sections.

The items highlighted in orange are requirements that must be illustrated/shown on the submitted plans. The items in blue will be checked during the initial inspection of the Compact Mobile Food Operation (CMFO). The items in grey will be checked during the final inspection and must be completed before a health permit is issued.

Once this plan submittal packet is complete, please call 858-505-6660 to schedule a review of the completed packet. After the packet has been approved, you may then schedule an inspection of the cart. All applicable fees must be paid at the time of plan submittal.

#### SIGNATURE AND ACKNOWLEDGEMENT

I declare under penalty of perjury that to the best of my knowledge and belief, the description of use and information contained on this application and plans are correct and true. I hereby consent to all necessary inspections made pursuant to law and incidental to the issuance of this review and the operation of this business. I also agree to conform to all conditions, orders, and directions, issued pursuant to the California Health and Safety Code, and all applicable County and City Ordinances. I understand that if the plans are incomplete due to a lack of any of the required information, the plans will be rejected and upon resubmission, a plan recheck fee will be charged. I am aware that plan check fees are not fully refundable once plans are reviewed. Plans are valid for one year after stamp of approval and must be restamped within 60 days of expiration or they will be purged. Any changes to the released documents will be submitted and filed with the County of San Diego, Department of Environmental Health and Quality. I understand and hereby consent to any information I provide on this permit application to be considered a public record subject to disclosure under the California Public Records Act.

# COMPACT MOBILE FOOD OPERATION COMPACT MOBILE STORAGE FACILITY LETTER OF AGREEMENT

#### THIS LETTER MUST BE RENEWED ANNUALLY

Section 114295 of the California Retail Food Code (CRFC) requires that all Mobile Food Facilities operate in conjunction with a commissary, mobile support unit, or other facility approved by the local enforcement agency. Section 114368.3 allows for Compact Mobile Food Operations (CMFO), as defined in Section 113831, to be stored in a non-health regulated commercial facility or a private home when not in use, as long as the storage location has been evaluated and approved by the local enforcement agency (DEHQ).

Note: Local ordinances may restrict the use of a home for the storage of a CMFO. Please contact your local city jurisdiction to ensure there is not a local ordinance in place restricting home storage prior to submitting this document.
