

**Notification of Hazardous Substance Change
and Compatibility with Underground Storage Tank(s)**
Title 23, California Code of Regulations, Section 2711(c), 2712b)(5)

Effective October 1, 2018, the UST owner or operator must notify the San Diego County Department of Environmental Health Hazardous Material Division in writing at least **30 days prior** to changing the substance stored in the UST and identify the substance to be stored, the date when that substance will begin to be stored, and provide compatibility documentation for all components of the UST system that may come into contact with the substance to be stored. These UST components include, but are not limited to, primary containment, secondary containment, spill containers, overfill prevention equipment, ancillary equipment, and leak detection equipment. **All compatibility documentation must be maintained by the UST owner or operator for as long as the specific substance is being stored.**
