WATER WELL PERMIT APPLICATION

DEH USE ONLY
PERMIT # _____
FEE: _____
WATER DIST: _____

1. Property Owner: _____ Phone: _____
Mailing Address: _____ City: _____ State: _____ Zip: _____
2. Well Location – Assessor’s Parcel Number: _____
GPS Coordinates (WGS-84 Decimal Degrees): _____ / _____ Elevation: _____
Site Address: _____ City: _____ State: _____ Zip: _____
3. Well Contractor/Driller: _____ Company Name: _____
Mailing Address: _____ City: _____ State: _____ Zip: _____
Email Address: _____ Phone: _____ C-57 License No: _____
4. Use: Private Public Industrial Other: _____
5. Type of Work: New Reconstruction Destruction Time Extension: 1st 2nd
6. Type of Equipment: _____
7. Depth of Well: Proposed: _____ Existing: _____
8. Proposed:

Casing	Conductor Casing	Filter/Filler Material	Perforations
Type: _____	<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Yes <input type="checkbox"/> No	From: _____ To: _____
Depth: _____	Depth: _____	From: _____ To: _____	From: _____ To: _____
Diameter: _____ in.	Diameter: _____ in.	Type: _____	From: _____ To: _____
Wall/Gauge: _____	Wall/Gauge: _____		
9. Annular Seal: Depth: _____ ft. Sealing Material: _____
Borehole Diameter: _____ in. Conductor Diameter: _____ in. Annular Thickness: _____ in.
10. Best Management Plan for confining well drilling waste on the project site provided? Yes No
11. Date of Work: Start: _____ Complete: _____

On sites served by public water, contact the local water agency for meter protection requirements.

I hereby agree to comply with all regulations of the Department of Environmental Health, and with all ordinances and laws of the County of San Diego and the State of California pertaining to well construction, repair, modification and destruction. Immediately upon completion of work, I will furnish the Department of Environmental Health with a complete and accurate log of the well (well driller’s report). I accept responsibility for all work done as part of this permit and all work will be performed under my direct supervision.

Contractor’s Signature: _____ Date: _____

DISPOSITION OF APPLICATION (Department of Environmental Health Use Only)

- DENIED
- APPROVED

This approval is valid for 120 days. A maximum of two extensions, each 120 days in length can be requested.

Special Conditions: Grading and clearing associated with access to, or the construction, maintenance, or destruction of water wells, may require additional permits from the County of San Diego and/or other agencies.

WATER WELL PERMIT APPLICATION**

DEH USE ONLY

PERMIT # _____

APN: _____

SITE PLAN

Indicate below the vicinity and exact location of the well with respect to, and including, the following items: property lines, transmission lines, water bodies/courses (ponds, lakes, and streams within 300 ft), drainage pattern, roads, existing wells, sewer laterals, existing or proposed septic systems, livestock/fowl enclosures, and other potential contamination sources. Please include lot dimensions, and please draw the plot plan to a standard engineer's scale.

SUPPLEMENTAL WATER WELL PERMIT APPLICATION*
(For Water Wells in SGMA-mandated basins)

DEH USE ONLY

PERMIT # _____

APN: _____

1. Proposed Water Use (e.g. irrigation, stock, domestic, industrial, etc.): _____
2. Estimated Annual Extraction Volume: _____
**If more than 2 acre-feet per year, complete items 3 through 6 and do not complete number 7 (declaration).
If less than 2 acre-feet per year and well will be used for domestic purposes, continue to number 7 (declaration).**
3. Area Served by Well (acres): _____
4. Proposed Production Capacity: _____ Estimated Pumping Rate: _____
Cumulative Extraction Volume before 1/1/2020: _____
Anticipated Pumping Schedule: _____
5. Estimated Water Table Depth: _____ Estimated Seasonal Groundwater Fluctuations: _____
Recharge Area (if known): _____ Recharge Rate (if known): _____
Location relative to flood plain: _____
6. Existing Well(s) on Property (if more than one, attach a separate page with the following information for each well):
Use: _____
Depth: _____ Diameter: _____ Screen Interval: _____
Pumping Rate: _____
Annual Extraction Volume: _____ Measured _____ Estimated _____
Specific Production Capacity (if available): _____
Results of Pumping Tests (if available): _____

7. DECLARATION OF DE MINIMIS EXTRACTOR STATUS

I, _____, declare that I understand the definition of a de minimis extractor, as
(Name of owner or legally authorized representative)

defined in the California Water Code, Division 6, Part 2.74, Chapter 2, Section 10721(e), to mean "a person who extracts, for domestic purposes, two acre-feet or less per year". I further understand that the Water Code and the Sustainable Groundwater Management Act (SGMA) exclude an applicant for a new water well who would be a de minimis extractor from the requirements for new wells in critically overdrafted groundwater basins and SGMA-mandated basins.

Furthermore, I declare that I understand that San Diego County Code of Regulatory Ordinances, Title 6, Division 7, Chapter 4, Article 5, Section 67.446 states, "a permit may be revoked or suspended by the Director if he/she determines that the person to who any permit was issued pursuant to this chapter has obtained the same by fraud or misrepresentation".

In recognition of the above, I declare that the proposed water well is for domestic purposes and I will not extract more than two acre-feet of water per year.

Signature: _____ Date: _____

STORMWATER & DISCHARGE MANAGEMENT PLAN FOR WATER WELLS

Well Permit Number: LWELL-	Assessor's Parcel Number:
--------------------------------------	---------------------------

GPS Coordinates: (map datum: WGS84, units: HDD) N: _____ W: _____

Section 1: Required Information from the Well Driller:

1. Are there any watercourses or water bodies within 50 feet of the limits of soil disturbance? YES NO
2. Does the plat show the project boundaries? (a "detail inset" is acceptable for a large parcel) YES NO
3. Does the plat show footprints of any existing structures and facilities within 100 feet of the wellhead position? YES NO
4. Does the plat show locations where run-off may enter storm drains, drainage courses and/or receiving waters? YES NO
5. Is grading required to access site or install well? YES NO
6. Does the project conform to the local grading ordinance? YES NO
7. Will drilling additives be used to drill the well? YES NO
8. Are the Best Management Practices attached to this permit application? YES NO

Section 2: Best Management Practices

The goal of stormwater and discharge control management planning while drilling and installing wells is to reduce pollution to the maximum extent practicable using Best Management Practices (BMPs). Construction related materials, sediments, chemical residues such as drilling foam, wastes, and spills must be retained within the property boundaries to eliminate transport from the site to nearby streets, drainage courses, receiving waters and adjacent properties. It is the responsibility of the property owner and the contractor to determine which BMPs will be used in order to ensure that all contaminants are retained on-site.

Examples of Best Management Practices to contain well installation run-off include, but are not limited to, installation of a sediment basin to contain run-off, using geotextile fabric to contain sediments and drilling mud, or eliminating the use of drilling foam. (Website information is available at www.projectcleanwater.org)

Section 3: Certification- I have read and understand the following: (Please check each box after concurrence.)

- Selected BMP's will be implemented so that water quality is not negatively impacted by well construction activities.
- I am aware the selected BMP's must be installed, maintained, monitored and revised as necessary so they are effective.
- I understand that non-compliance with the San Diego County Watershed Protection Ordinance may result in enforcement actions by the County. These may include fines, citations, stop-work orders, or other actions.
- DEH inspectors and personnel from other regulatory agencies are authorized to enter my property at any time for purposes associated with this well permit until such time the well is completed to the satisfaction of DEH.
- Should DEH determine during the field review that the well installation procedures contradict this Discharge Management Plan or the well permit application, the well drilling permit may be suspended or revoked. Further activity will require a new permit fee and amendment to the existing permit.
