Mark,

What's not the purpose of what? I don't see a problem with what was stated below. Of course we will answer any questions concerning the project application(s) to the extent our current information allows us. I recommend we make that clear to the applicant's now.

Thanks,

Rob

Mark and Rob,

This concerns me. You should call her and clarify the purpose of the meeting. This is not the purpose and you need to make that clear now.
