COMMENTS MUST BE RECEIVED BY 4:00 PM, JANUARY 7, 2013

To whom it may concern:

The proposal to build a large solar project on Tierra de Luna and Tierra del Sol is a horrible mistake. The benefits to Boulevard are non-existent. We do not need a business that would only benefit the builders. This would be a magnet for every illegal, which would stretch our Border Patrol even further. The damage to the environment would be devastating.

What about our water supply, our roads? With only a two lane road we at Luna Oaks Ranch have to be able to travel.

I didn't buy property here to live in a "industrial park". Property values will only go down.

S.D.C.C. will also be
affected by this man-
uver. S.D.C.C. need "no
lights at night" so their
telescopes function
and they can observe
the planets. They are
very good neighbors.

The weather here during
cold months is very
cold, with snow (2-3 feet)
and lots of deep freezes.

Our fire Department
would be over worked
and "under paid".

Solynedia solar
company "went under".
How is this company
better?

There is one road to and
from the shopping areas
and that is I-17 del. del.

My Harnes would be at
risk.

My daughter's
business would be at
risk.

My son is a mental
patient and needs
frequent in town visits.
"Valley Fever" is not wanted.
In closing this
is undeniable.

Suna Oak Ranch
