Hi Donna,

The groundwater studies for the Soitec project are still in draft form. As I mentioned previously, I will provide you with copies once they have been accepted.

Thank you for passing this information along. Currently, the Live Oak Springs Water Company is not a proposed source of water for the Soitec project.

Thanks,

Ashley

Subject: groundwater investigation status?

Hi Ashley,

Just checking on the status of Soitec's groundwater investigation and when it might be released as promised.

Don't know if it makes any difference to the groundwater report, but the linked CPUC document shows the Commission voted on Oct 31 to deny Live Oak Springs Water Company's request for a rehearing and stay in Investigation Proceeding #I208004.

The decision authorizes and directs their legal department to commence with proceedings in the Superior Court of San Diego for appointment of a receiver to take possession of and operate Live Oak Springs Water:
http://docs.cpuc.ca.gov/PublishedDocs/Published/G000/M079/K514/79514965.PDF

Thanks!

Donna
