Hi Ashly and Robert

A few of conservation folks are brainstorming next week on the East County plan and how it relates to the energy projects. When I met with you all on this project, I did not take home a map showing the location of the three Soitec footprints. Is something like this available electronically and also "off the shelf"? I fully understand if it is not for distribution and please do not go to any effort to create something new.

Thank you if convenient.

Dan
