Thank you Donna,
I can provide copies of a comment form similar to what was provided during the NOP meeting. The legal ad also contains direction and contact information for submitting comments during the public review period. I will also provide extra copies of that form.

Thanks,

Thanks Robert,

I don't think wireless internet is available in our Fire Training Room but will check with Chief Francois and let you know.

Will a public comment form be provided?

Donna

Donna,

1) I will update the fact sheet for the CPG meeting on Thursday night, and will include information concerning the DPEIR, and where files are available online and how those files are organized.

2) Water use for the Rugged and TDS project sites is included in the DPEIR and in the Groundwater technical studies.

3) I plan to bring a dozen copies each of the Rugged grading plan, Rugged plot plan, TDS grading plan, and TDS plot plan. Mindy will also provide a map showing Renewable Energy Projects in the Boulevard area.

4) We'll deliver CD's including all technical reports on Thursday and all links to the EIR files and technical reports will be active on Thursday.

Can you please let me know if wireless internet access is available at the Community Room?

Thanks,

Robert Hingtgen, Planner III

Subject: Soitec meeting questions

Hi Ashley,

Several questions for our Jan 2nd Boulevard Planning Group meeting:

1. Is there a new/ revised Soitec PEIR fact sheet available that replaces the original attached fact sheet?
2. Is the amount of water use for each project included?
3. What type of handouts/ maps will you be providing?
4. Is the Groundwater investigation available yet?

See you Thursday. I have no idea how many people will show up for our meeting.

Thank you

Donna
