WRITTEN COMMENT FORM

*This project would be highly adverse to residents,
wildlife and ^{the} environment around Boulevard. The
impact on the limited water supply would be potentially
disastrous to the area communities. The high winds,
fog and fire danger in this area renders it a very
poor choice as a construction site. Soil erosion,
glare, noise and traffic is not needed in this*

(Attach additional pages as needed)

*area. Recommend the project
be moved to a better location
perhaps east on BLM land.*
