6. **MAJOR PROJECTS AND LAND USE ITEMS:**

A. **3300-10-037 (P10-037RPL1), REZ 10-004 P 10-037 REZ 10-004 CHINESE BIBLE MUP/REZONE – KIVA 09-0117132 – Santa Fe Valley Chinese Church 16919 Four Gee Road n/o Tallus Glen.**

Proposed church in Santa Fe Valley Specific Plan area – 1000 seat main sanctuary, to expand to 1500, with classrooms, offices recreation, school, and ancillary uses. 43 ft. high with two 57 ft. towers; S88 zone to RS-2 zone Applicant contact: Ron Harper, Jr. 858-449-4425 Planner: Bruce Liska Extensive audience, and list of names/phone# / email addresses on file. Project is approximately 9 acres.

Ron Harper, Project Manager, made presentation, reviewing the changes made since the original presentation as a result of community outreach meetings. He also listed the various reports & studies done to address concerns brought up during these meetings.

The elevations show a very large 3 story/layered building, centered in the center of the property. He offered his comments justifying the approval of this project.

Fire Chief Michel from RSF Fire Dept. offered their concerns to the access in case of an emergency.

Steven Jones, representing residents in opposition to the project, made his presentation. He had petition in his possession containing almost 5,000 signatures in opposition.

Five attendees spoke in favor of the project, to include: 1) importance to the elderly residents, 2) support beyond the regular church attendance, 3) follow the appropriate regulations, 4) easy access for those who do not drive, 5) usage would be alternate flow than from heavy commuter periods.

Five attendees in opposition brought forth issues: 1) The concern for drainage & open space, especially during rains – what happens to the flooding? 2) following the Specific Plan’s intention is critical – this project does not do that, 3) The project does not meet the character of the community, 4) future growth in Black Mountain will contribute to the “perfect storm” of traffic at Four Gee Rd. & Cam Del Norte intersection. Density is nightmarish.

Planning Group does not feel they can provide an official position at this point, without the Traffic Study. As such, Bruce Liska proposed a letter outlining points that need to be submitted as a progress report, which will include the following feedback and concerns from the hearing: 1) Size of the complex, Bulk of the buildings, height of towers does not meet the MUP requirements of the Specific Plan, 2) Traffic analysis report was not available and traffic issues as outlined in more detail in his letter is of great concern in this very congested, high density area, 3) Concern for evacuation and other emergencies at the RSF Fire station will be very impacted, 4) RR/RS designation allows civic use with an MUP better than RS-2. The Planning Group members are not comfortable yet with submittal of comments, so the hearing is continued to allow further discussion to create an appropriate response.
