request an extension of our comments to the 20th. The applicant provided a letter of support from his neighbors, which was submitted to The County. We reviewed the Negative Declaration and found no objection to it. There are 5.5 acres of chamise chaparral and 2 acres of coastal sage scrub that will be mitigated with property off-site. There are possibilities of paleontological fossils so the applicant is required to provide a qualified expert to supervise the excavation. The applicant has contributed to TIF funds for the 72 adt’s to be generated, and provided PLDO funds for parks. The Planning Group members saw no objection to the report and will provide a letter to The County of same.

E. **PDS 2012-2700-15684/PDS2012-2240-17341 Mitigated Negative Declaration for Bagley L-Grade and Improvement Plan** for the balanced excavation and fill of 17,250 cubic yards. The project covers six parcels, APN’s 267-145-31 thru -34 and 267-146-05 and -08, located at Artesian Road and Rio Vista Road in Rancho Santa Fe. Antennas consist of 4 new AT&T, 4 new T Mobile and 6 new Verizon panel antennas mounted on an existing 31 ft monopole containing 4 existing antenna. Final antenna count will be 18. G. **PDS2013- VAC 13-002; ER 0308-051A; AD 13-037; LPRM 13-004 located at the corner of Rambla de las Flores and El Acebo in Rancho Santa Fe; APN 268-080-20&21; 268-100-39&40** - The principal encroachments are pedestrian trails in the remainder of the Biological Open Space. In several instances, these will occur on existing, graded routes. One new proposal is the switchback at the northeastern area. The feature would not be visible except when actually on the trail due to the height of the Chaparral in this area. Another trail area is between the guest house lot 2 and lot 3, through the narrow Biological Open Space area. These trails, especially the new one, would have to be carefully designed and constructed since in some areas, the soil is very sandy and erosive. No horse use on the trails is contemplated since this would introduce high-nitrogen weeds into these preserve area. Applicant: Zain Rodriguez for TX-CA Holdings, LLC 619-325-6333; PDS Planner: Beth Ehsan 858-694-3103; SDPG Member: Laurel Lemarie 858-756-2835. *Postponed to 10-3-13*
