FINAL AGENDA

A. ROLL CALL

B. PLEDGE OF ALLEGIANCE (optional)

C. APPROVAL OF THE MINUTES FOR THE MEETING OF May. 2013 There was no meeting in June so there are no minutes to approve for June.

D. PUBLIC COMMUNICATION: Opportunity for members of the public to speak to the Group on any subject matter within the Group's jurisdiction that is not on the posted agenda.

E. ACTION ITEMS:

1. County Flood Control District Update of Drainage Facilities Mater Plans: The County of San Diego's Flood Control District is in the process of updating the Drainage Facilities Master Plans for the ten Special Drainage Areas (SDA) established within the County and will be making a presentation. Prior to the establishment of the SDAs, the County was divided into 7 Zones. Drainage facility fees were collected and distributed per zone. However, due to the large area each of the zones encompassed, and the uneven fee distribution, the County Flood Control District established the ten Special Drainage Fee Areas. The development of the Drainage Facilities Master Plan for each of these areas helps the County establish the needs for future drainage improvements by creating an existing drainage inventory, calculating storm water runoff based on planned/future land uses, identify recommended drainage improvements; estimate probable construction costs for the recommended facilities; prioritize implementation of the recommended facilities, and calculate drainage fee updates. Contact Gitanjali Shinde at gitanjali.shinde@sdcounty.ca.gov for more information. **Discussion / Action Item**

2. Proposed General Plan Policy Revisions: General Plan 'cleanup' every two years in the form of a General Plan Amendment (GPA). The Clean-Up GPA (12-007) is intended to provide a regular mechanism for making changes to the General Plan to allow for corrections discovered during the Plan's implementation or to reflect changing circumstances. This is the first Clean-Up processed since the adoption of the General Plan Update. The types of changes in the Clean-Up fall under the following categories: land use map, policy documents, mobility element network, and community/subregional plans. See document at:
